

Quality Tools for Smart Cleaning™

THE ALL NEW

TALITE®

CLEANING SAFELY FROM THE GROUND
HAS NEVER BEEN THIS POWERFUL.

nLITE®

THE ALL NEW nLITE WATERFED POLE SYSTEM

Unger's Generation 2 nLITE Waterfed Pole System exemplifies innovation and high quality. Pure water is the fastest and most efficient way to clean outdoor glass surfaces and Unger's lightweight and rigid nLITE Carbon water fed poles keep workers safe on the ground.

- No twisting: trouble-free work and less wear and tear
- Optimal stability-to-weight ratio
- Greater pole rigidity
- More precise control of the cleaning movement

LIGHTER, MORE PRECISE, FASTER.

SMART LOCK CLAMPS

- Easy and quick to close with just one finger
- Clamp mechanism that protects the carbon material and ensures a long service life for the pole
- Extension stop prevents pulling out pole elements too far

INTEGRATED HOSE MANAGEMENT

Internal routing of the new, highly flexible DuroFlex hose in the telescopic pole for trouble-free work on windows and facades.

Complete flexibility: external routing possible with optional hose keeper clips.

PRECISION GRIP POLE FORM

Innovative, unique pole shape, with contact surfaces optimally adapted to the shape of your hand:

- For ergonomic working and making best use of your strength
- More precise control of the cleaning movement and high force transmission
- Uninterrupted work due to non-twisting pole

UNGER®

TOP PERFORMANCE THROUGH PROGRESS

Innovation, high quality, and customer-oriented development have always been **UNGER**'s guiding principles. This applies once again to the new generation of the **nLITE** telescopic pole system:

- German engineering in a timelessly stylish design
- Intelligent solution for faster, more flexible system setup
- Pioneering technologies for more effective cleaning results
- High Quality – Made in Germany

HIGH-END CARBON MATERIALS

Ultra-lightweight. Extremely durable. Three choices of carbon:

- **CARBON COMPOSITE:** High quality mix of carbon and glass fibers
- **CARBON 24K:** Premium carbon fibers in a unique weave of 24,000 fibers per bundle
- **COMING SOON - HiMod CARBON:** Premium carbon fibers with extreme rigidity and high resilience

MORE STABLE, HIGHER, MORE PRECISE!

UNGER has developed its new nLITE telescopic poles to take your performance to new heights. Maximizing refined details and precision while minimizing time and effort spent getting organized for your work.

POWER BRUSH AND ANGLE ADAPTER

Innovative modular system that offers almost limitless application options

- 2 brush widths combined with further equipment options
- Gooseneck adapter system = maximum flexibility even in hard-to-reach places

TELESCOPIC MAIN POLE

6-sections main telescopic pole:

- Can be extended with extension poles (CARBON 24K)
- Length 28' (collapsed 5.5') means you can reach the third floor
- Optimal diameter for perfect ergonomic handling

EXTENSION ADAPTER

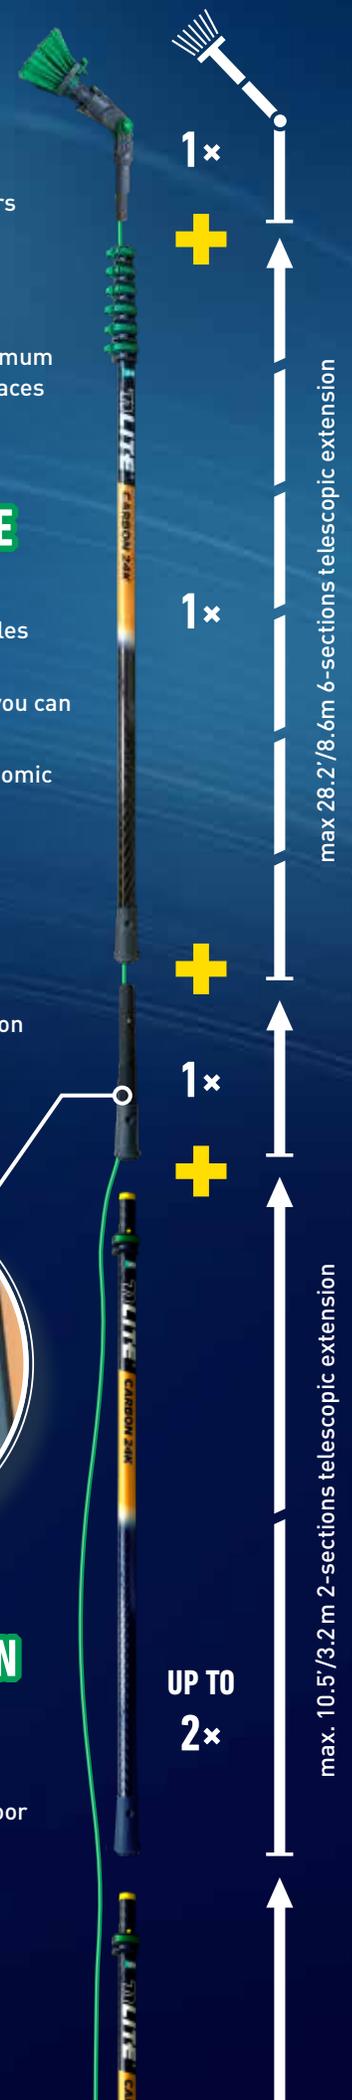

Connects the first telescopic extension pole to the telescopic main pole with internal hose routing.

TELESCOPIC EXTENSION POLE

2-sections telescopic extension pole:

- Length 10.5' (collapsed 6') = one floor
- Depending on the version, up to 2 extension poles can be used
- Working heights up to 52.5'
- Constant and optimal diameter for every length

UNPRECEDENTED DIMENSIONS IN WINDOW CLEANING

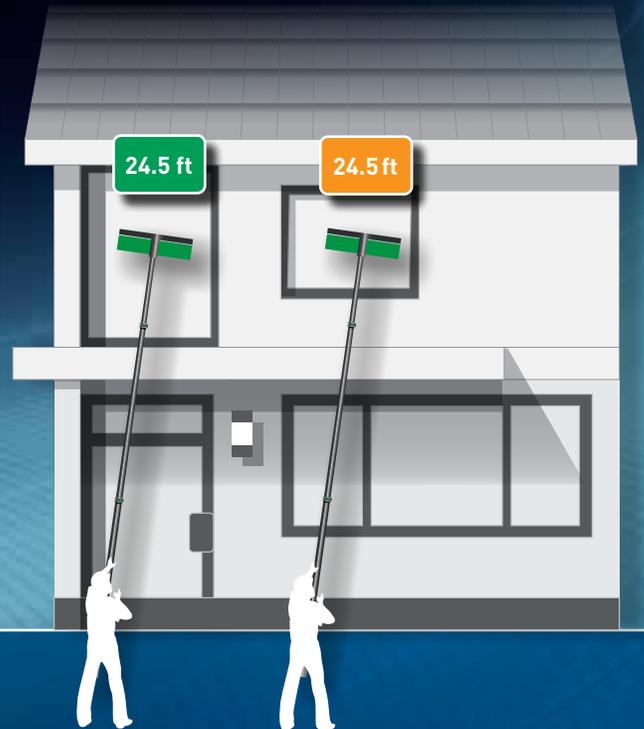

The pole lengths offered by the all new **nLITE** system have been created and optimized for your everyday work.

The telescopic main pole now measures 28', so it extends to the third floor. Each extension pole offers exactly the additional length to take you up another story (10').

For cleaning two story buildings or with a boom lift, we have the right solution for you with telescopic poles ranging from 10.5' to 20' in length.

UNGER guarantees the best possible premium quality in each material class used and thus the perfect solution for every working height.

15 ft — Color = material quality
Feet shown = working height

Part number:	CC32T	CC60T	CF60T
Pole sections:	2	4	4
Total pole length:	10.5'/3.2 m	20'/6 m	20'/6 m
Recommended for:	1st floor	2nd floor	2nd floor

Carbon COMPOSITE

RESILIENCE: 100 GPa*

Recommended for working heights of up to **32.5'**

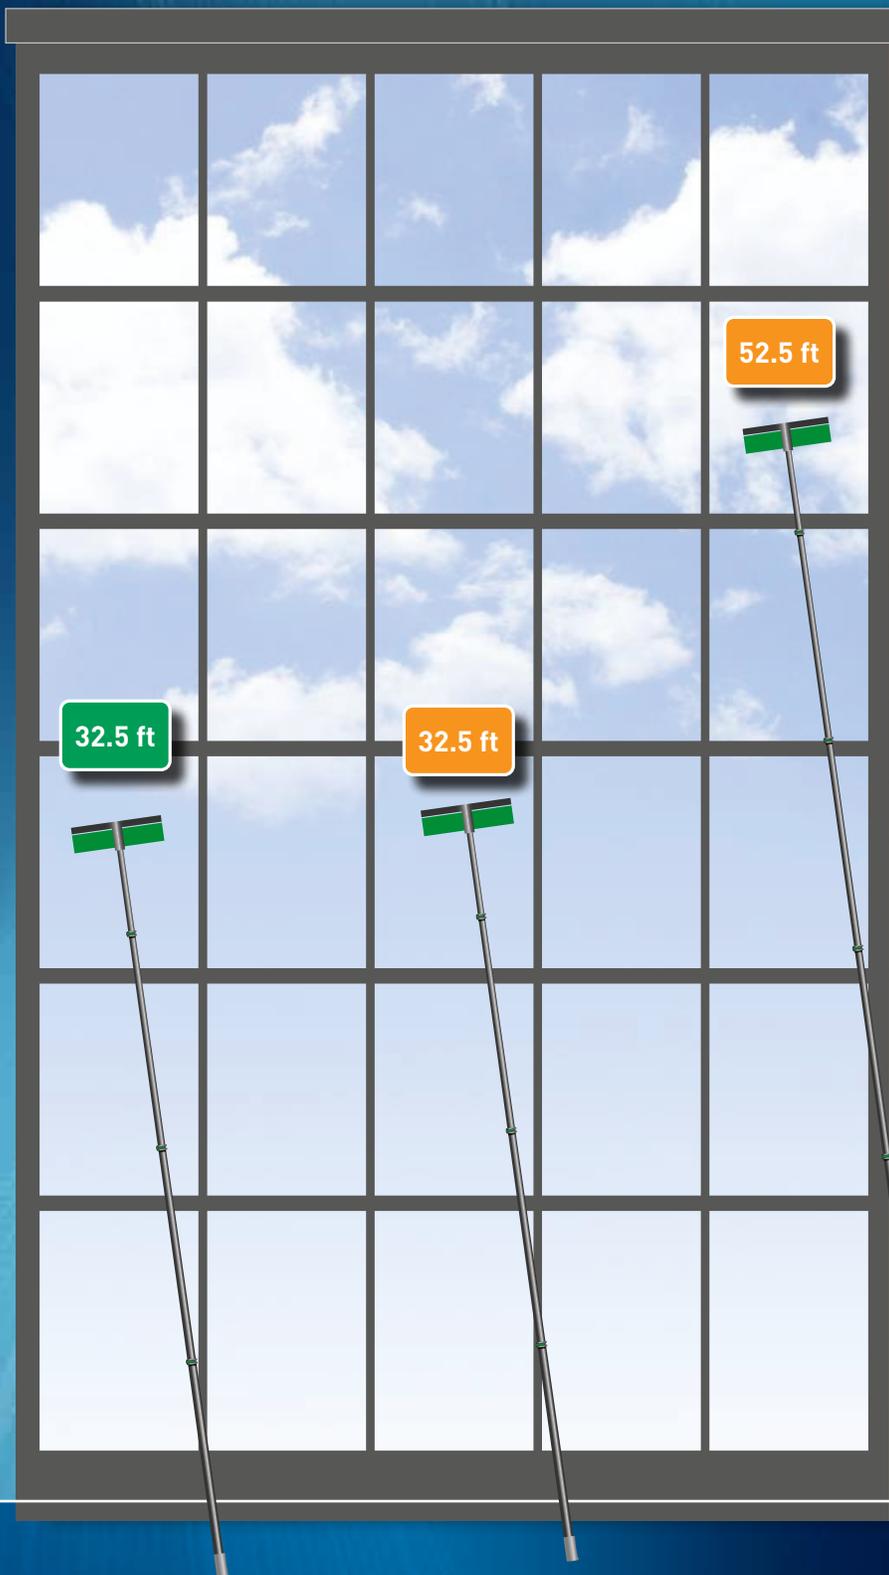

*GPa (Gigapascal) is a unit of measure of material strength

Carbon 24k

RESILIENCE: 210 GPa*

Recommended for working heights of up to **52.5'**

*GPa (Gigapascal) is a unit of measure of material strength

Carbon 24K Main/Extension Poles (CF86G, CF33G) reach heights up to 52.5'.
Up to 2 Extensions can be added to the Main Pole.

Telescopic Poles (CF60T, CC85T, CC60T, CC32T) can extend
up to 28' depending on pole size chosen.

NEW!

SWIVEL FUNCTION AND POWER BRISTLE TECHNOLOGY

RINSE BAR

This special flushing nozzle bar is attached above the brush and delivers the right amount of pure water exactly where it is needed for powerful rinsing of the cleaned surface, more effective than ever before! Ideal in connection with the swivel function.

- Water jets from the nozzle block built into the middle of the brush ensure powerful dirt removal

POWER BRISTLE TECHNOLOGY

- A** Inner bristles with extremely high cleaning performance, comparable to natural hair bristles
- B** Longer outer bristles for easy gliding: no more jumping of the brush

Outstanding down to the last detail: a fully optimized brush concept prepares you for almost any challenge.

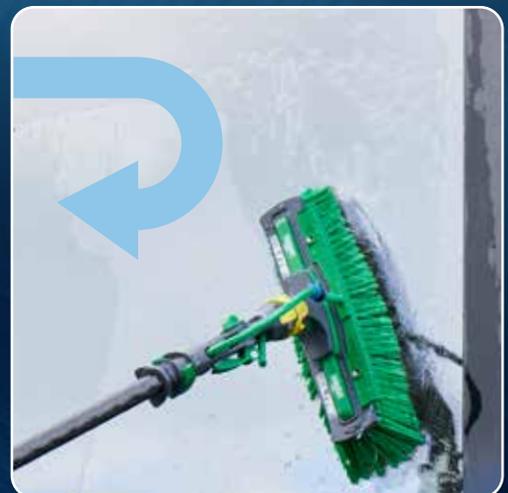

- Clever water distribution system
- Innovative bristle technology
- Precision cleaning down to the last corner
- Ultimate cleaning performance for perfect results

SWIVEL LOCK

You've never cleaned faster and more precisely down to the last corner: the swivel function is a completely new way of cleaning with pure water up to the second floor (20'). Open the swivel lock and experience the advantages:

- The brush socket, which can be swivelled freely through 180°, enables the surface to be cleaned with an S movement with the brush touching down over the entire surface
- Enlarges the work area, ideal for cleaning from boom lifts or gondolas

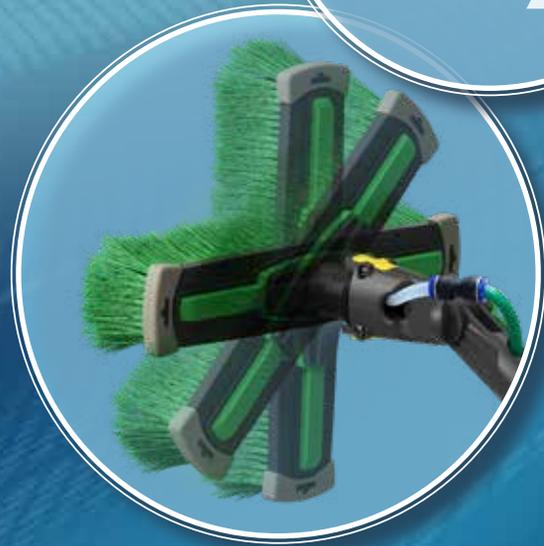

MODULAR ANGLE ADAPTER SYSTEM: CLEAN HARD-TO-REACH PLACES

Another innovative feature of the new nLITE pole system is the modular angle system, in which you can combine four individual elements in any number of variants in order to easily reach places that are difficult to access. Whether you are cleaning difficult overhanging elements or glass roofing and walls, this system gives you the perfect angle for every application.

Simply adapt the modular angle adapter individually to your application. The angle is freely adjustable and quickly fixed with the clamps.

- A** Angle adapter small
- B** Angle adapter medium
- C** Angle adapter long

FAST LOCK

With a single click: simple, fast, and stable connection for every work situation:

- Change brushes in seconds
- Adjust brush angle in 45° stages
- No twisting when cleaning!

ANGLE ADAPTERS

Choose from three pre-configured angle adapters:

HYDROPOWER: OUR INNOVATIVE AND EFFICIENT PURE WATER FILTERS

If you want to clean with the most advanced telescopic pole system, the right pure water filter is essential. Depending on your individual requirements, choose between DI or RO in different performance classes.

PRODUCT OVERVIEW

nLITE® Poles

	Part No.	Info	Extended	Collapsed	Sections	Case Pack
CARBON COMPOSITE	CC32T	Composite Telescopic Pole	10.5'/3.2 m	5.5'/1.7 m	2	1
	CC60T	Composite Telescopic Pole	20'/6 m	5.5'/1.7 m	4	1
	CC85T	Composite Telescopic Pole	28'/8.6 m	5.5'/1.7 m	6	1
CARBON 24K	CF60T	Carbon 24K Telescopic Pole	20'/6 m	5.5'/1.7 m	4	1
	CF86G	Carbon 24K Main Pole	28'/8.6 m	5.5'/1.7 m	6	1
	CF33G	Carbon 24K Extension Pole	10.5'/3.2 m	6'/1.8 m	2	1

All telescopic poles (excl. extension poles) are delivered with an internal hose (pole length + approx. 30 cm)
The hose from the pole to the water filter must be supplemented (DLS25).
