

CHEWBLET ICE AND WATER DISPENSERS

Innovative solutions, inspired by ice

Follett has a Chewblet® ice and water dispenser solution for every hydration need. From its beginning in 1948, Follett has led the ice industry in manufacturing quality, innovative products. Follett ice and water dispensers exclusively feature Chewblet ice, a bite-sized nugget that adds a whole new dynamic to drinks. Enjoying iced coffees, teas, and other healthful drinks has never been more fulfilling. With over 50 models to choose from, Follett makes an ice and water dispenser for every application. Exclusive features include “install anywhere” drainless designs, countertop models that fit neatly under overhead cabinets and sanitary dispensing. When you buy a Follett dispenser, you are buying Follett’s commitment to quality, durability, and unsurpassed performance.

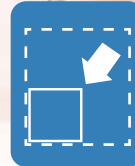

Champion® ice dispensers are **Cleaner. Easier. Better.** We've made cutting edge refinements, improving upon the platform that launched the original 7 and 15 Series into a leading position in the marketplace, making it the industry's leading icemaker. Champion dispensers offer Chewblet ice, a premium ice type chosen by leading coffee chains and QSRs.

Touchless dispensing.
Activated by hovering a
finger in front of the sensor

Compact footprint. Only 15" wide, and
the 7 Series fits under standard cabinets
with a height of less than 18"

**Produces up to 125 lb
of ice** in a 24 hour day

Three configurations –
countertop, freestanding and
undercounter

Operates without a drain,
making it possible to install
just about anywhere

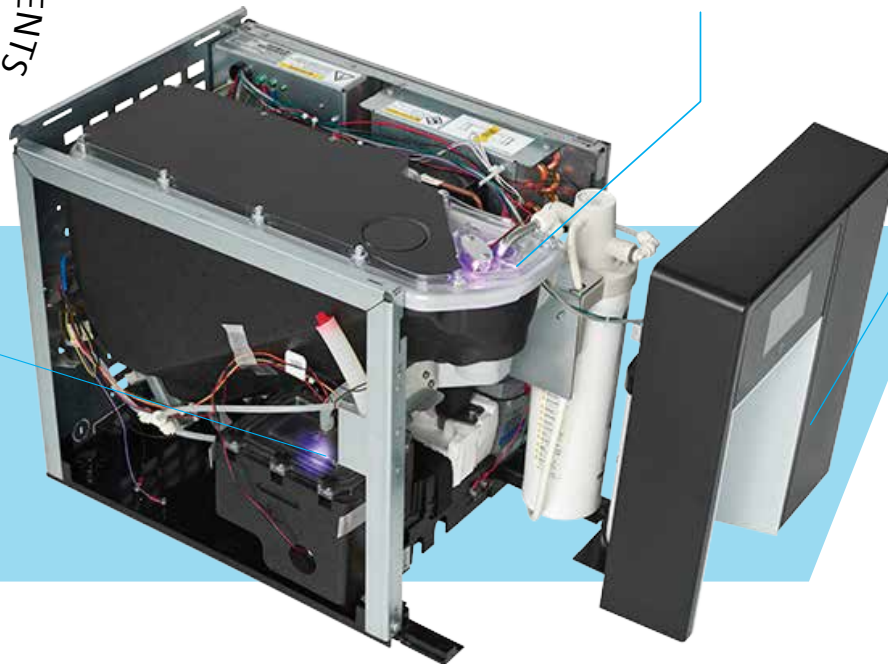

Optional hot water
expands your drink selection

Optimum sanitation results
include recommended cleaning

UV light
improves
cleanliness of
water reservoir

Clean light
actively keeps the
dispense area clean

protection
of key ice and
water contact
components
(115 V models only)

Upgraded 4.3" touchscreen with advanced diagnostics

Best in class alerts and diagnostic tools can be accessed through the user interface. Self help is accessed from the main screen with the  in the top right corner. Users can access basic troubleshooting, cleaning and filter replacement in easy to use step by step on screen instructions. Component performance data is available to servicers for quick and accurate diagnosis. Champion is IoT ready for remote diagnostics with a required separate hardware and subscription.

Original 15

Champion 15

Champion internal ion filter

Included
as standard

Decrease
cleaning
frequency

Increase the
life of the
equipment

Ion exchange resin reduces water hardness through strong adsorption. The resin also partially retains calcium to prevent limescale from forming in the ice machine.

Champion meets certifications essential for any commercial ice machine

No foodservice operation would consider not meeting these NSF and UL standards. They protect against liability and should be the standard in workplace as well.

REGISTERED
NSF 12

CERTIFIED
UL 60335

Champion features industry-leading design for commercial reliability and reduced impact on the environment

IoT ready

With subscription and additional hardware, IoT remote diagnostics maximize uptime

Low voltage components

Low voltage condenser fan and water valves improve reliability

Sustainable

Environmentally conscious design with reduced global warming potential refrigerant, and an energy efficient ice machine

Symphony Plus

Countertop 12

Width: 16.12"

Height: 32.50"
Weight: 144 lb

Countertop 25/50

Width: 21.00"
Depth: 24.00"
Height: 36.00" (25)
Height: 40.00" (50)
Weight: 188 lb

Freestanding 110

Width: 26.25"
Depth: 29.44"
Height: 68.12"
Weight: 253 lb

TWO
configurations
– countertop
– freestanding

Symphony dispense height

12 Series – 9.38"
25/50 Series – 10.50"
110 Series – 7.75"

Symphony Plus Dispensers

425 lb per day of Chewblet ice

12 Series

Only 16.12" wide, the 12 Series has the industry's most compact footprint for a 425 lb per day ice and water dispenser and offers 12 lb of ice storage

25 and 50 Series

Offering 25 lb and 50 lb of ice storage to match with the 425 lb per day production for higher-volume applications

110 Series

In addition to offering 90 lb of ice storage for servicing large applications, the 110 Series, like the 25 and 50 Series, features a removable ice making module for ease of service and replacement

Modular

The ice machine module can be swapped out between 25, 50 or 110 Series dispensers or replaced with a new module for faster, easier service, providing more up-time.

Powerful

425 LBS/
24 hrs

Sanitary

Efficient

Reliable

Easy to Service

Space-saving designs

The most compact footprints in the category

Antimicrobial

Key components protected with silver based antimicrobial to inhibit growth on treated surfaces

Infrared SensorSAFE™ or lever

Dispensing options without hand contact put ice directly into your cup and avoid contamination associated with scoop-out ice machines

Sustainability

Uses up to 20% less energy and up to 40% less water to produce ice than similar-sized, cube-type ice machines

Filtration

Freestanding units offer several filtration options including factory-mounted filters conveniently located in the base

Automatic self-flushing

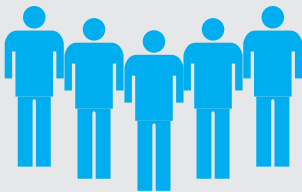

Water system regularly expels minerals and impurities for lower maintenance costs and better-tasting ice
