PLUS DI PRODOTTO PRODUCT PLUS

- **PERFECT BREWING**
The SIS (Soft Infusion System) guarantees a soft and creamy espresso shot.
- **ENERGY SAVINGS**
The boiler of the Appia Life uses Drytex Thermal technology which reduces 13% of energy consumption. Combined with more sustainable materials, the Appia Life has a 20% less environmental impact than its predecessor, the Appia II.
- **EASY MAINTENANCE**
The Appia Life has been designed to be more efficient when it comes to maintenance. The complete new style of the machine facilitates the user in any operational routine. Its new adjustable nozzle attachment, new side opening system, and redesigned groups, are all features that allow it to be more efficient.
- **COLOR OPTIONS**
The Appia Life comes equipped with black side panels and a black base. These side panels can be changed to red or white, but the base will remain black.

DEDICATA A SUITABLE FOR

- LOCATIONS PULLING INTO SHOT GLASSES
- BARISTA COMPETITORS
- MEDIUM OR HIGH QUALITY SHOPS
