

NEW! TOWER DISPLAYS

#655000

This modern retail display is a durable and sleek merchandising solution with three shelves for multi-tiered viewing. The three black steel shelves measure 10”L x 8”W and have white inserts that can be flipped to be used as a platform or as a tray. The white plastic shelving inserts are removable. Easily slide-in signage into the sign holders located on each tier to display important sales or marketing information. The c-channels that are adhered to each shelf are suitable for a 7” L x 1.25” H graphic. The top sign holder holds a 8”L x 3”H size graphic, and can snap on and off. The height of the slim shelving rack is 56” H, and with the detachable sign holder it reaches an overall height of 60”.

Chrome Arm Cube Bin Floor Retail Display has an elegant open arm design provides customers multiple options to view and shop a variety of items in one display. The sleek and durable floor stand sits on a heavy duty 24 inch round diameter base, and will hold up to high traffic areas. There are four tiers that branch out with 4 clear deluxe bins on each level. There are a total of 16 individual 6” x 6” clear glass-like acrylic cubes. Each cube bin nestles into the display shelf to hold it secure while customers shop. A removable sign is included at the top of the unit where retailers can slide marketing material or branding in the 11” W x 7” H sign holder.
