

Utility Carts Overview

ENDURA[®] Utility Carts

Core molded plastic carts built for durability and daily use.

TUFFY[™] Multi-Purpose Carts

Durable, general-use carts for everyday transport across environments.

MEDIA Utility Carts

Mobile AV workstations with power, storage, and adjustable features.

INDUSTRIAL Utility Carts

Heavy-duty carts for high-capacity transport in demanding environments.

SPECIALTY Utility Carts

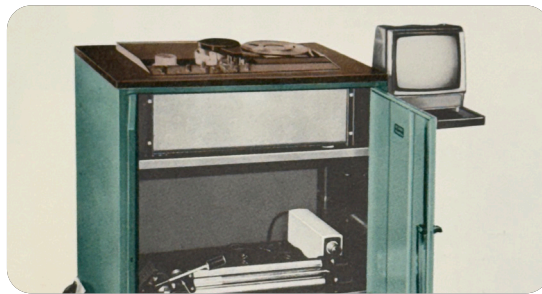

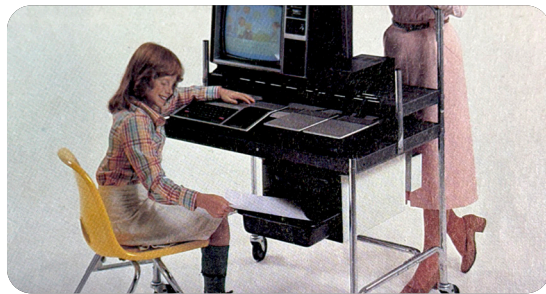

Purpose-built carts designed for specific tasks and industry needs.

An Authority in the Industry

Luxor supports work across a wide range of environments with a comprehensive utility cart lineup. Our portfolio includes multi-purpose, industrial, media, and specialty carts designed to transport, organize, and support daily operations.

Each product line is built with specific use cases in mind, ensuring the right balance of durability, mobility, and functionality. From lightweight transport to heavy-duty hauling, Luxor carts are designed to meet the demands of real-world workflows.

FLEXIBLE CONFIGURATIONS

Multiple shelf types, sizes, and accessory options allow carts to adapt to a wide range of tasks. From tub and flat shelves to integrated power and storage, configurations support evolving workflow needs.

DURABLE MATERIALS

Constructed from high-quality HDPE, PVC, and steel, Luxor carts are built to withstand daily wear, heavy loads, and frequent movement. Materials are selected to resist dents, rust, and long-term damage.

VERSATILE APPLICATIONS

Designed for use across education, industrial, office, and commercial environments, these carts support a variety of tasks including transport, storage, presentation, and equipment management in both light- and heavy-duty settings.

ASSEMBLED IN THE USA (SELECT MODELS)

Select cart models are assembled in the USA to support consistent quality, reliable performance, and streamlined supply. This ensures dependable construction standards across key product lines and configurations.

Durable and dependable, Endura® Utility Carts are everyday workhorses built for lasting reliability. Molded from high-density plastic that resists dents, rust, and peeling, they perform shift after shift. For heavier demands, the Endura® XL adds strength and capacity for bulkier loads.

ENDURA® SERIES SPECS

Cart Dimensions:	24in x 18in - 32in x 24in
Weight Capacity	300-400 lbs.
Materials	Molded Plastic
Type of casters	Full Swivel

Endura®
Compact, standard-duty carts designed for everyday transport in tighter spaces. Supports routine loads up to 300 lbs. with a focus on mobility, simplicity, and efficient daily use.

Endura® XL
Expanded, higher-capacity carts built for larger equipment and bulkier loads. Supports up to 400 lbs. with increased surface area for more demanding transport needs.

Tub
Shelf

Choose between tub shelves that keep items securely in place or flat shelves that allow easy loading and unloading. Both designs support efficient transport every day.

With rounded legs, smooth corners, integrated handles, and full-swivel casters, Endura® carts adapt seamlessly to busy environments, making navigation safe, quiet, and comfortable throughout long days.

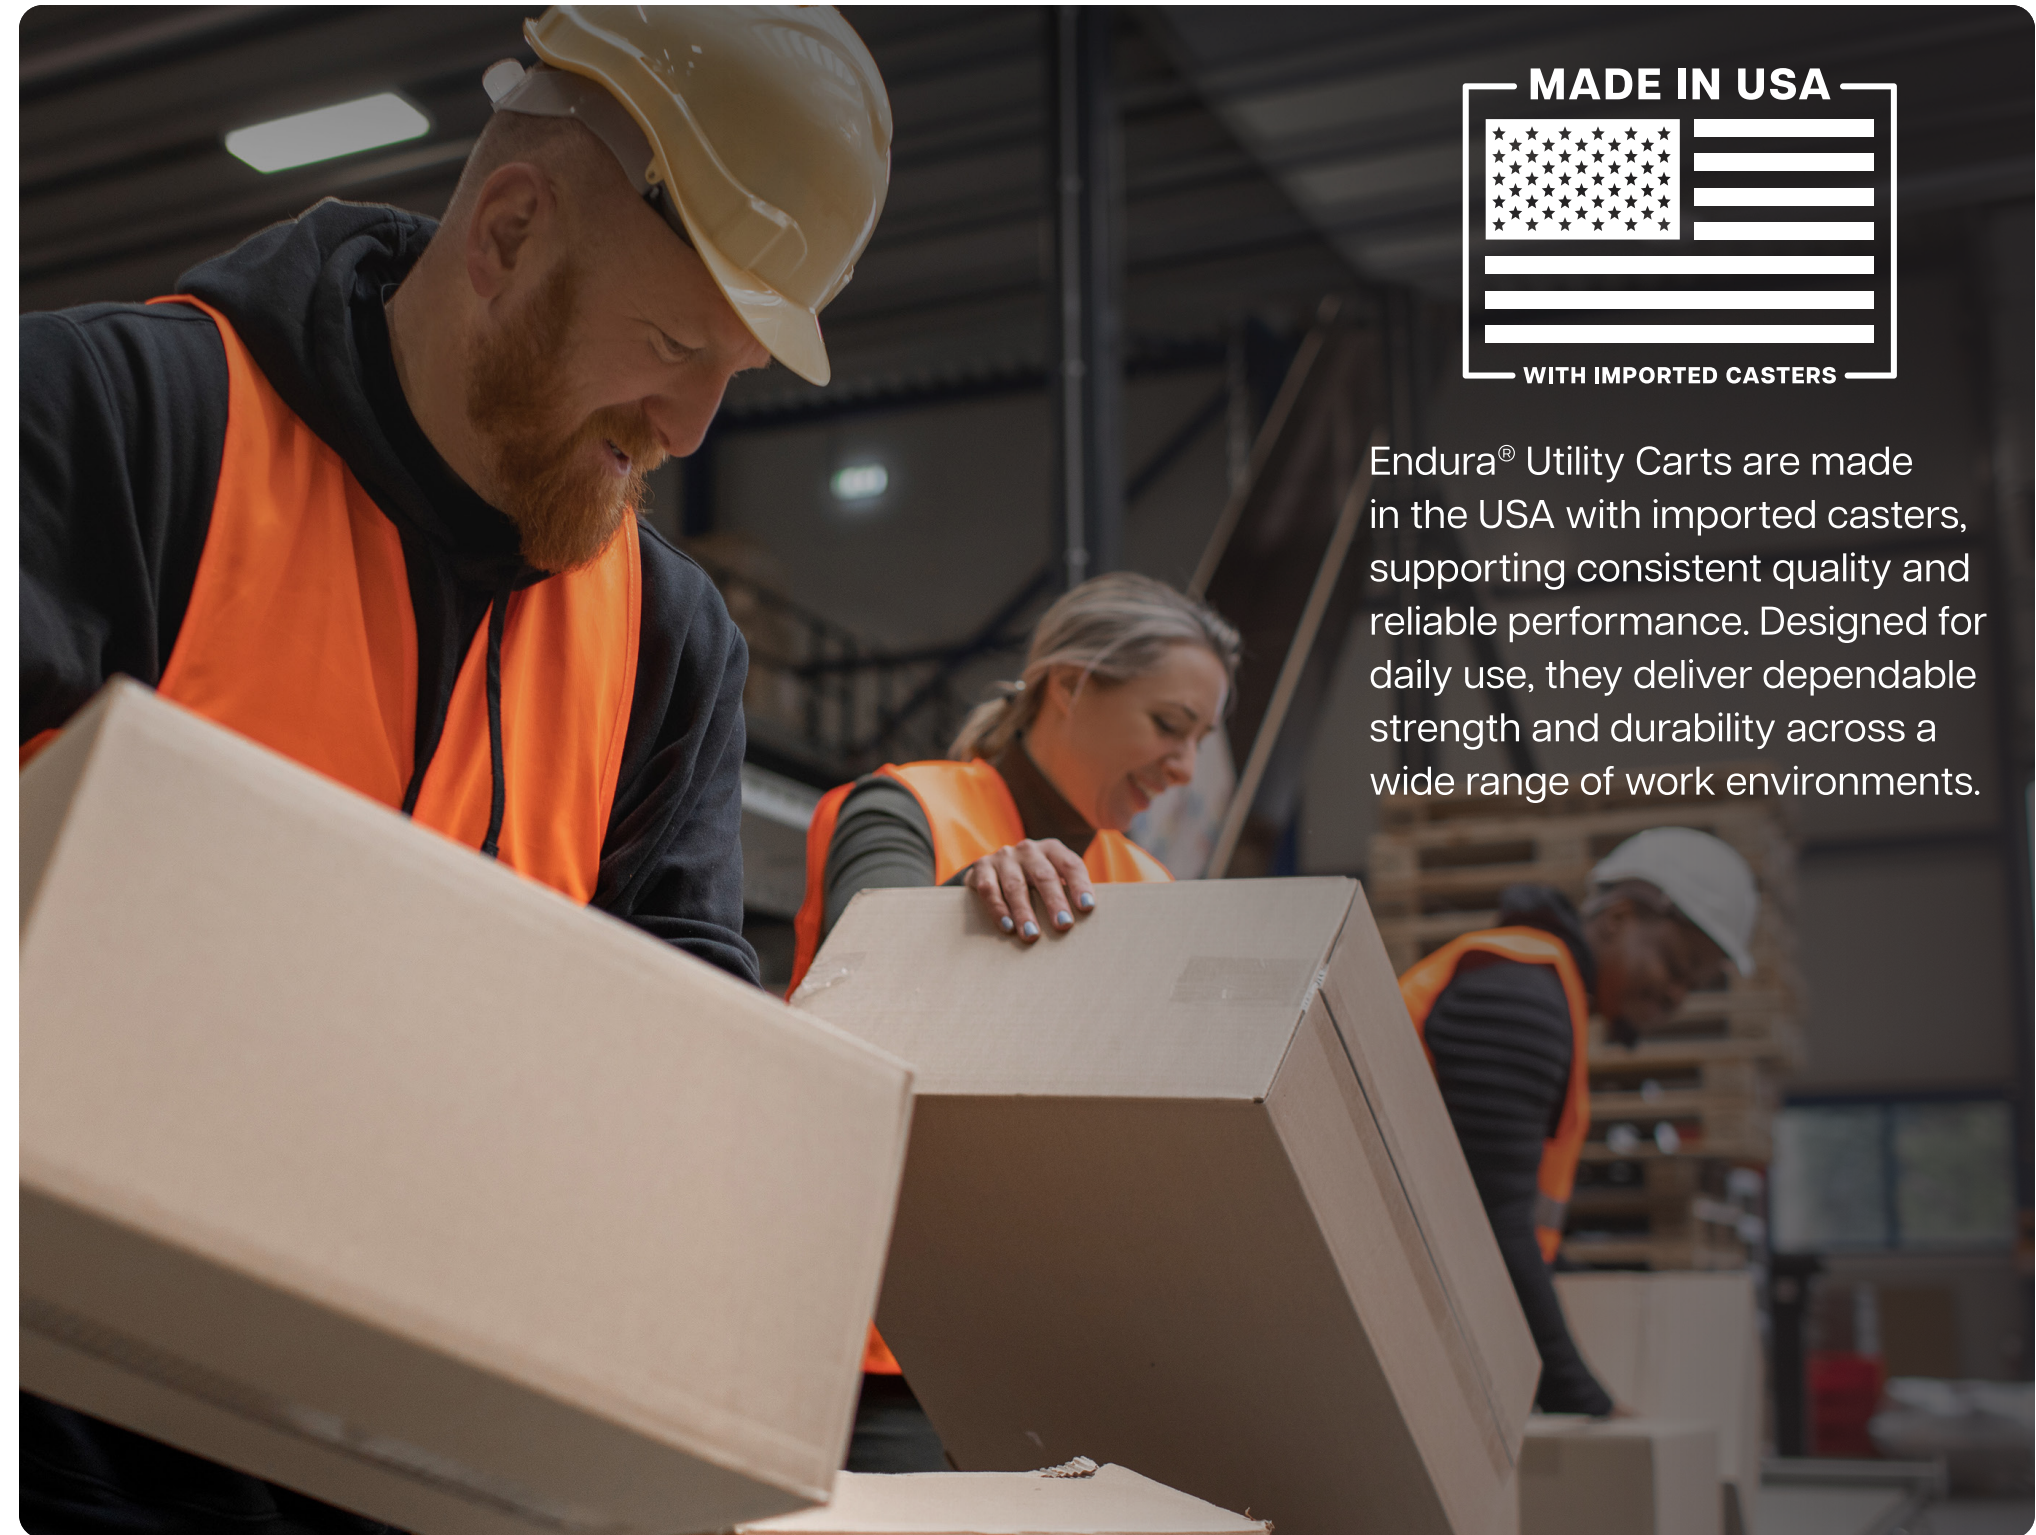

Flat
Shelf

Full-Swivel
Casters

Endura® Utility Carts are made in the USA with imported casters, supporting consistent quality and reliable performance. Designed for daily use, they deliver dependable strength and durability across a wide range of work environments.

Custom Shelf Configurations

Choose from tub- or flat-shelf configurations to fit your workflow. Each design delivers dependable strength, smooth mobility, and the flexibility to handle varied daily tasks.

Integrated Electrical Assembly

Optional electrical assembly provide built-in power where it's needed most, keeping laptops, tablets, and devices charged and ready during work, training, or presentations.

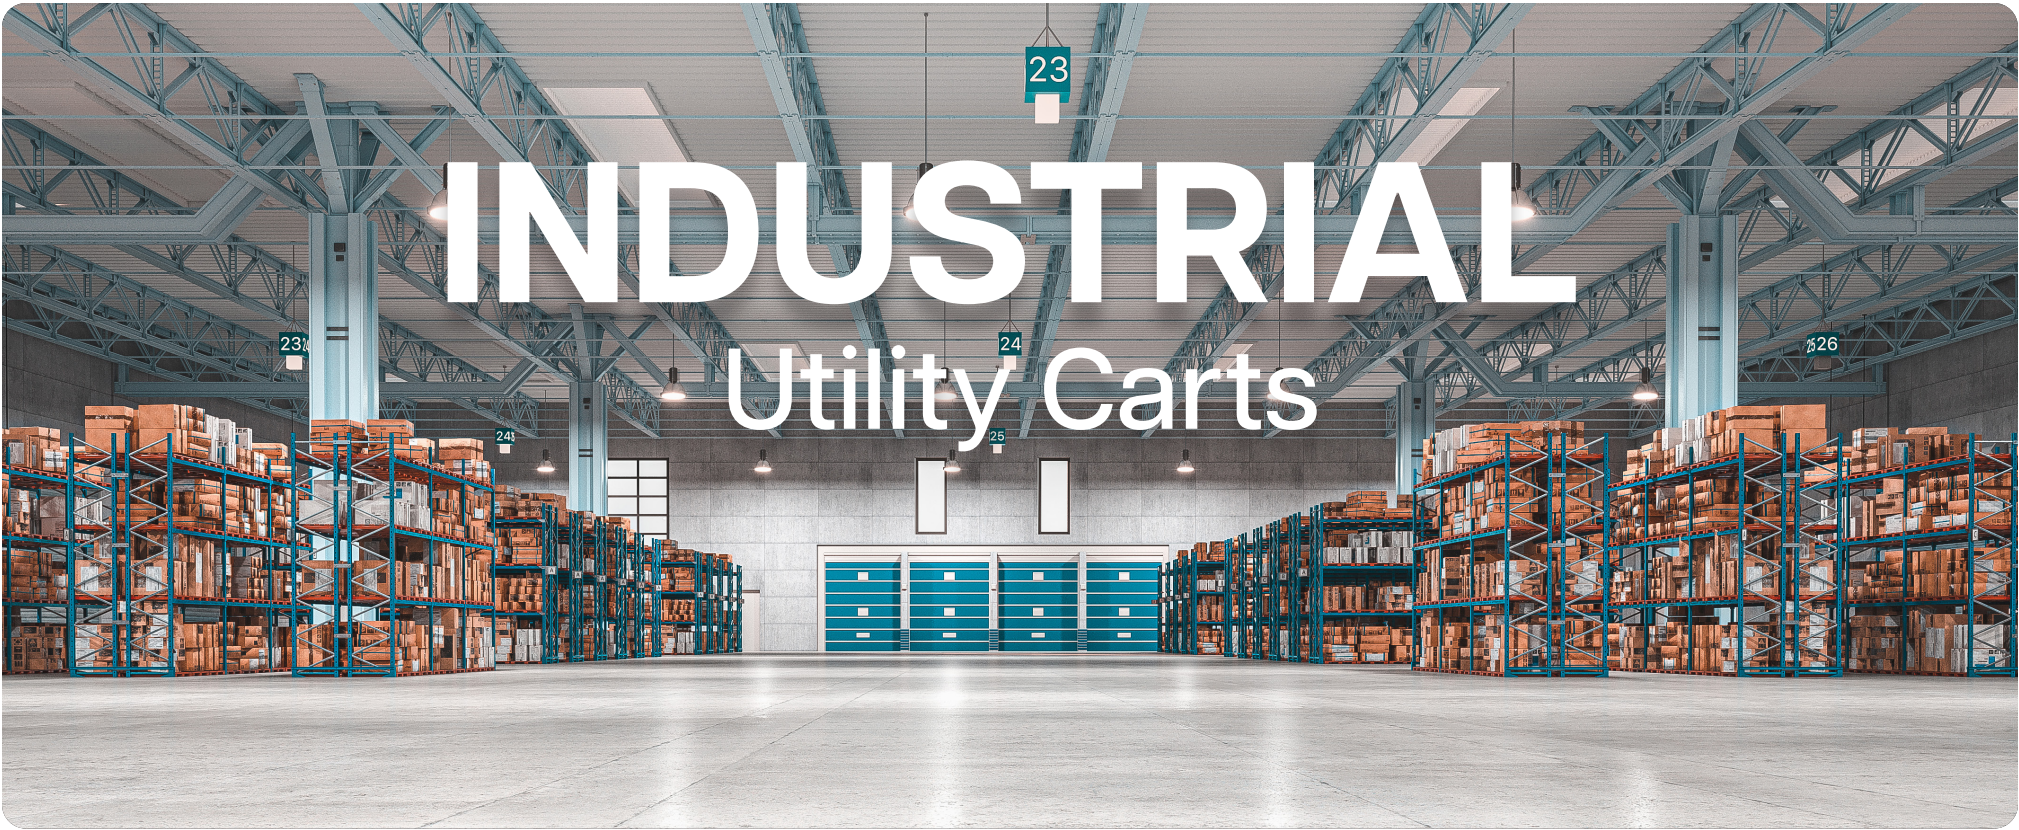

Won't Scratch, Rust, Dent, or Stain

Endura® Carts are molded from durable plastic that maintains its appearance over time and are backed by a lifetime warranty against workmanship and defects.

Lightweight, Easy to Maneuver

Durable yet lightweight, Endura® Carts are easy to maneuver in tight spaces. Designed for smooth handling and control, they allow users to move loads efficiently without added effort during transport.

Industrial utility carts are built for serious strength and adaptability. With high-capacity construction and durable materials, they stand up to heavy loads time and time again, delivering dependable performance professionals can count on in even the most demanding work environments.

INDUSTRIAL SPECS	
Cart Dimensions:	32in x 18in - 36.5in x 24.5in
Weight Capacity	400-1,200 lbs.
Materials	HDPE or Steel
Type of casters	Full Swivel or Heavy Duty

WorkLoad™
Deliver dependable performance across a full range of tasks. From oversized heavy-duty models to compact WorkLoad™ Mini designs, each cart features rugged HDPE/PVC construction, smooth mobility, and thoughtful configurations built for strength, stability, and everyday reliability.

MightyHaul™
Combine heavy-duty steel strength with a 1,200-lb. weight capacity. With reversible shelves, you can choose between flat or tub configurations to haul more however you need it. Designed for demanding environments, these carts deliver every time.

WorkLoad™

Industrial Utility Carts

WorkLoad™ Carts are heavy-duty performers with rugged HDPE construction and a 500 lb. capacity. Available with open shelving or a secure locking cabinet, they deliver dependable strength and versatility for transporting tools, supplies, and equipment across demanding environments.

SERIES SPECS

Cart Dimensions:	32in x 18in or 36.5in x 24.5in
Weight Capacity	500 lbs.
Materials	HDPE
Type of casters	Full Swivel or Heavy Duty

WorkLoad™

Simplify hauling with open shelving and 500 lb. capacity. Durable plastic and smooth casters ensure reliable transport for oversized tools and materials.

WorkLoad™ Cart with Cabinet

Combine a 500 lb. capacity with secure storage. Locking doors protect valuable supplies, while rugged construction provides long-lasting, heavy-duty performance shift after shift.

WorkLoad™ Essential Carts

The reliability you trust in the WorkLoad™ line, now in a compact form. Durable plastic construction provides stable mobility for smaller loads and supports accessories like ladder holders, spool holders, and brackets.

MightyHaul™

Industrial Utility Carts

MightyHaul™ Utility Carts combine steel strength with a 1,200 lb. capacity. Reversible shelves let you choose flat for easy loading or tub for secure transport. Shipped compact, they expand into rugged workhorses ready for for the toughest jobs.

SERIES SPECS

Cart Dimensions:	34in x 18in or 34in x 24in
Weight Capacity	1,200 lbs.
Materials	Steel
Type of casters	Heavy Duty Full Swivel

MightyHaul™ 2-Shelf Configuration

Designed for larger items and bulk transport, this configuration provides open access and control during loading and unloading. Reversible shelves allow flat or tub setups, and two size options support different workspace needs.

MightyHaul™ 3-Shelf Configuration

Adds an extra level of storage for more organized transport of smaller or layered items. Available in two sizes, it maintains heavy-duty performance while allowing flat or tub shelf configurations for added flexibility.

TUFFY™ Carts are the original injection-molded plastic carts, invented by H. Wilson in 1971. Known for their textured HDPE/PVC construction, swivel casters, and angled handles, they’re lightweight yet incredibly strong and tough enough for daily use and built to last shift after shift.

SERIES SPECS

Cart Dimensions:	24in x 18in - 32in x 18in
Weight Capacity	300-500 lbs.
Materials	HDPE/PVC
Type of casters	Swivel or Heavy Duty

TUFFY™
The popular injection-molded plastic cart, TUFFY™, set the standard for strength and reliability. With durable HDPE/PVC construction and flat shelves featuring a 0.25” retaining lip, it remains a trusted solution for everyday hauling.

TUFFY™ XL
This cart provides deep-sided shelves to keep items secure during transport. Durable construction, smooth casters, and angled handles make them easy to navigate in busy spaces.

From classrooms to facilities, TUFFY™ Carts adapt to a wide range of uses. With multiple shelf styles and durable construction, they are ready for any daily demand.

Integrated Drawers

Add drawers for convenient organization. Store small tools, accessories, or supplies within easy reach while maintaining a tidy and efficient workspace.

Secure Storage

Choose cabinet models for enclosed storage. Keep essential items protected and accessible during transport or everyday use.

Accessible Power

Built-in power wherever you need it. Keep devices, AV equipment, and laptops charged and ready to use.

Toolless Assembly

Enjoy quick, toolless* assembly that saves time and ensures stability. Components lock securely in place without the need for additional tools or hardware.

*Most Models

Media utility carts provide mobile workstation solutions for AV and presentation needs. Designed with steel or HDPE construction, they include integrated, model-dependent features such as adjustable shelves and keyboard trays, offering flexibility and dependable mobility. Leader™ and Endura® AV media utility carts are built for classrooms, offices, and facilities.

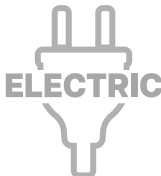

SERIES SPECS

Cart Dimensions:	24in x 18in - 32in x 20in
Weight Capacity	300 - 400 lbs.
Materials	Molded Plastic or Steel
Type of casters	Full Swivel

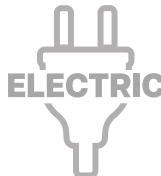

Leader™

These carts are ideal for media and presentation use. Featuring steel construction and height adjustability, it's a dependable workstation that adapts to professional and educational settings.

Endura® AV

This cart combines HDPE durability with integrated handles, smooth casters, and functional design. Built for easy navigation, they keep presentations and workstations mobile and efficient.

From classrooms to corporate settings, Leader™ Carts support media equipment, laptops, and supplies. Their adaptability makes them a reliable choice for diverse presentation and media needs.

Adjustable Height

Leader™ Carts adjust in height for models above 26", ensuring optimal viewing and usability.

Color Variety

Available in multiple color options to support different environments, organizational systems, and visual preferences. These finishes help differentiate work areas, improve identification, and maintain a clean, cohesive look across shared or multi-use spaces.

Extended Workspace

Add drop leaves to instantly expand your workspace. They fold down when not in use to save space and improve flexibility.

Secure Storage

Choose models with a locking cabinet for secure storage. Keep equipment, tools, and electronics protected yet easily accessible.

Stow-away Keyboard Tray

Include an optional keyboard tray for ergonomic comfort. The slide-out design creates a convenient, functional workstation for typing and presentations.

Accessible Power

Add a movable electrical assembly for built-in power wherever you need it. Keep devices, media equipment, and laptops charged and ready to use.

Endura® AV media utility carts combine durability and mobility with features designed for technology use. Rounded corners and integrated cord wrap handles improve safety and cable management, while smooth-swivel casters ensure easy navigation. With options for keyboard trays or cabinets, they create functional, mobile presentation workstations.

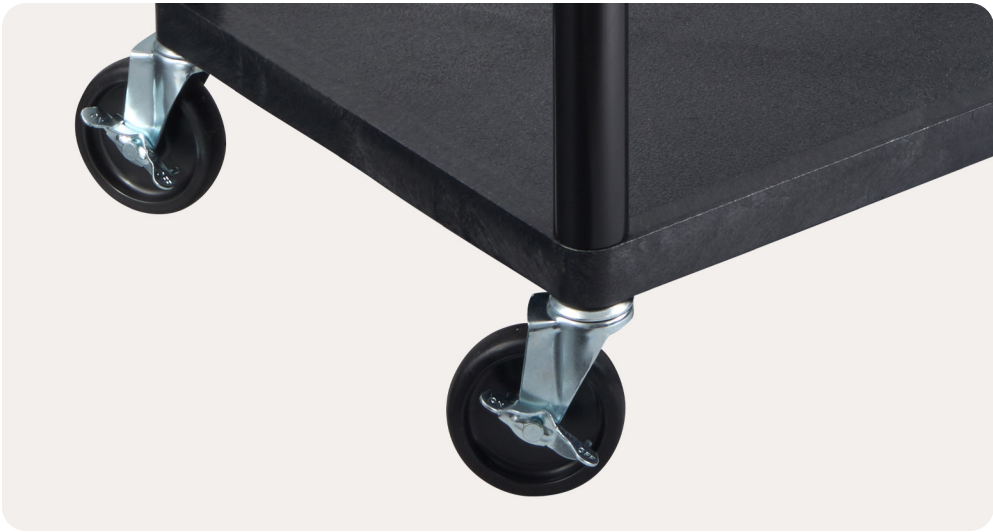

Integrated Power Handle

Available on most models, this handle-integrated electrical assembly provides built-in power and improved cable management, keeping cords organized and devices charged during presentations or workstation use.

Integrated Cabinet

Available as an option on select models, the integrated cabinet provides secure storage for electronics, tools, and materials while maintaining easy access and a clean, organized appearance.

Effortless Mobility

Lightweight construction and smooth-swivel casters make the cart easy to move between rooms, ensuring effortless navigation and control in busy or tight environments.

Strong Weight Capacity

Supports up to 300 lbs. of equipment and supplies, providing durable, dependable strength ideal for AV setups, technology stations, and mobile presentation needs.

Specialty Carts expand the lineup with purpose-built solutions for unique tasks across industries. From collapsible wire carts to hospitality applications, these carts emphasize safety, durability, and functionality. Built with quality and versatility, they adapt seamlessly to specialized needs and evolving demands.

Serving Carts

These carts are designed for hospitality, supporting linens, meals, or supplies with strength and reliability. Durable construction and smooth mobility help maintain safety and efficiency.

Wire Carts

Combine lightweight, durable metal construction with a collapsible design for easy storage, open visibility, and smooth mobility in any workspace.
