The Eccotemp 45H Outdoor Gas Tankless Water Heater is one of our largest outdoor models of the Eccotemp tankless line. Rated at an impressive 6.8 Gallons Per Minute and 140,000 BTU per hour, this model is ideal for normal hot water heating applications in ANY size residential single family home, as well as smaller commercial applications.

With an Energy Factor Rating of .82, you have peace of mind knowing this tankless water heater is ideal for individuals looking to save money. The 45H features an advanced Generation 2 computer board with high performance processing and smart adjust technology built-in. Our proprietary developed programming meets and exceeds today's consumer demand needs. With a minimum activation rate at .6 GPM means this tankless water heater is perfect for most low flow applications.
