

Crafted for the Journey

MERSEA is a women owned company founded in 2013 with a singular passion in mind: Travel, and the nostalgic scents that come along with it. Fascinated by scent's ability to transport the body and soul to places old and new, this led the founders to uncover the creations of artisan found in corners around the world. Now, MERSEA is no longer exclusively a destination for scents and self-care, but a curated collection of travel essentials crafted entirely for your journey - wherever you may go.

VOYAGER

Strong aquatic notes with a pepper punch—for those with the spirit of adventure, this scent is sailor fresh.
