Wrapping Systems and Films

MINI PAK'R INDUSTRIAL®

This compact, versatile system is perfect for distribution centers where packing lanes require different protection configurations.

- Versatile configurations for various packing environments and protection needs
- Easy to operate, RFID technology automatically selects the right seal temperature, air flow and seal pressure
- Loads in seconds!

Wrappable Film Options:

Our quilt patterns are more effective than bubble wrap and look better too! Perfect for wrappable cushioning, cross layer and top layer protection for a variety of products.

- Quilt Small
- Quilt Medium
- Quilt Large

Void Fill Systems and Films

SMART™

The AirSpeed Smart is a convenient and cost-effective way to create inflatable cushions on-demand for compact or work-station packaging operations.

- Void fill and wrappable patterns
- User friendly, load film and go!
- Engineered for durability and low maintenance
- Versatile – produces inflated cushions of varying lengths and air fill levels, customized to meet shipping needs

Void Fill Air Pillow Film Options

Air pillows take up less space and are clean, neat and nonabrasive. Customers can expect a high quality, tough film with outstanding air retention and puncture resistance. Sustainable choices include our air pillows with How2Recycle labels or our EP Flex™ Renew formulation.

- Engineered for stronger reliable seals
- Excellent tensile strength, our pillows stretch where others pop!
- Ergonomically friendly roll weights and easy to tear perforations

Performance Options:

- Commercial Grade
- EP Flex™ Renew
- EP Flex™
- EP Flex™ Elite

Compact and Ship From Store Systems

MINI PAK'R®

Designed with the Omni-Channel retailer in mind, this easy-to-operate system is ideal for ship-from-store and other compact packing stations.

- Void fill and wrappable patterns
- Simple out of the box operation, just plug and go!
- Worker ergonomics and space are maximized

THE AIRSPEED ASSURANCE

1. Productivity

AirSpeed systems are optimized for any packaging environment providing enhanced ergonomics and output, while delivering the superior product protection to reduce shipping damages. Specifically designed to improve the efficiency of your labor force and maximize safety.

2. Reliability

Portfolio of high quality, low maintenance equipment delivers reliable protection to reduce damages and provide a better customer experience.

3. Versatility

AirSpeed's compact systems fit any space and can be configured as table/standing units, vertically mounted or have a custom integration. And our film comes in a variety of lengths, widths, cell heights and formulations for optimal protection.

4. Scalability

AirSpeed offers collection bins, winders, overhead delivery systems and a variety of other accessories, delivery systems and custom configurations to integrate into your existing or new fulfillment operation.

5. #InspyreChange & Brand Loyalty

Inspire your customers by packing with Water Blue HC Inspyre. For every roll purchased, Pregis will make a donation to Uzima, a non-profit that provides lifesaving water filters to the people that need them most.

- Social Responsibility
- Unique Unboxing Experience
- Inspyre Change
- Extends Customer Lifetime Value

How2Recycle Member

Pregis has teamed up with the Sustainable Packaging Coalition (SPC) to encourage the proper recycling of packaging material through smart labeling. SPC's standardized How2Recycle labels are easy to understand, so consumers are empowered to recycle more. We're proud to offer How2Recycle labels on air pillows and will continue to expand our efforts to inform and educate consumers on recycling options at the thousands of local store drop off locations.

- Better customer experience
- Clears confusion around proper recycling
- Consumers prefer brands using How2Recycle label
- 77% have a more positive perception of a How2Recycle member companies
- 87% are more likely to purchase a product with a How2Recycle label
