The Beauty of Unity.

Commercial Washroom Accessories. Brought to Life.

THE ELVARI™ COLLECTION DESIGN HIGHLIGHTS

The Elvari Collection transcends ordinary commercial washroom design, offering the most elegant array of sophisticated accessories available. Featuring modern finishes with innovative fingerprint-resistance technology, Elvari elevates your washroom design to unprecedented heights.

The Elvari collection is available in five popular finishes using an exclusive, proprietary electrocoat color process. Unlike powder coating, color is applied to the entire stainless steel part using a submersion process with electrically charged particles — resulting in a durable consistent color across all surfaces while allowing the grain of the stainless steel to show through. And the best part is... the finishes are fingerprint resistant! A game changer for keeping the restroom clean and easy to maintain.

Electrocoat finish Brushed Black, Bronze, Brass, Nickel and Stainless Steel | Satin Stainless Steel

BradLock, the first magnetic locking system created for washroom accessories, maintains the overall seamless design of the product

Fingerprint resistant finish reduces maintenance headaches

Electrocoat Brushed Stainless Steel finish on left shows reduced fingerprint compared to Satin Stainless Steel finish shown on right

Easy to read indicators alert staff when attention is due

Easy-feed feature avoids jams and torn paper, reducing waste

Wall Saver anti-slam operation prevents an open dispenser from damaging walls or products when being refilled
