

Crystal

PRO

NEW

Crystal Pro is a cordless, battery-operated table lamp which seamlessly blends form and function. A gray- or amber-tinted glass shade rests atop a futuristic, die-cast aluminum body which provides durability and elegance in equal measure. A touch control located on the base of the lamp allows switching on/off, dimming, and 3-CCT color-temperature selection: 2200K (candlelight), 2700K (warm white), and 3000K (cool white). The integrated LED module is designed to produce controlled downlight.
