porcelain made in germany. we are the manufacturer.

Weiden production – founded in 1881; this is now the largest and **most modern** porcelain manufacturing plant in Europe

Schönwald production – founded in 1879; recently, the Schönwald plant inaugurated two furnaces with the latest firing technology offering extremely high flexibility in the expansion of capacities in line with demand

Selb – decoration and logistics center

“Made in Germany” allows better control of pricing and future availability

unsurpassed quality without compromise.

Bauscher is a global brand for professional, international dining culture, with porcelain for the entire restaurant and catering segment as well as hotels, professional catering, and the hospital and care sector. Bauscher porcelain offers all the excellent properties of true hard porcelain.

Bauscher’s porcelain is fired at over 2550 °F, resulting in a hard glaze that:

- makes our porcelain **extremely resistant to metal marking, caustic solutions, and shocks**
- enables it to retain its luster while being **hygienically safe**
- protects decorations and color, which sink into the glaze and fuse with the porcelain, making them **permanently protected**

Even after the thousands of wash cycles, our porcelain will look as new as it did on the first day. We have the skill required to design porcelain that satisfies the demands of perfect catering tableware and completely fulfill the needs of our customers: **design, functionality, durability, stackability** and **breakage resistance**. Opting for our porcelain means putting our experience and quality to work for you.

innovation and sustainability.

We are socially responsible—today and for coming generations. Our high-quality porcelain is **made exclusively in Germany**. Bauscher has a long history of groundbreaking solutions for our customers. The Bauscher brothers were the inventors of hotel porcelain. Our B1 100 tableware was the first system with space-saving shapes, while Carat was the first relief-design tableware of its time. Today, Bauscher has developed the first intelligent tableware with its debut of Pabis. Bauscher will always strive to find the **answers of tomorrow today**.

For over 135 years, Bauscher has invested in Germany, in its employees, and the area’s top quality raw materials and sustainable technologies. Just as many of our collections are inspired by nature, we strive to be good stewards of our resources to ensure future inspiration.

We are socially responsible and continuously optimize all processes and follow the principle of environmentally sound operations:

- Porcelain is made of just **a few natural raw materials**, and has an outstanding environmental balance
- The extremely robust tableware is manufactured with **energy-efficient, resource conserving processes**
- New firing technologies **lower energy consumption** by a third and reduce CO2 emissions
- All ceramic components within the production waste are **completely recycled**

For sustainable success: Porcelain made in Germany

The sustainable success of our **environmental management** system has also been underscored by our certification according to the most strict international manufacturing standards: **ISO 14001**. In addition, we are the first company in the global porcelain industry whose **energy management** system is certified according to **ISO 50001**. Our dedication to energy efficient and resource friendly manufacturing is inherent to our company culture.

Reducing waste

For opening projects, Bauscher can use bulk packaging to **cut down on waste and labor**. Operators can choose the amount of product they want in bulk and standard packaging.

make it your own with
custom decor

design

Our designers develop decor ideas that are just right for you and your business.

development of decor

With great attention to detail, the design approved by you is developed further in our decor studio until ready for production.

implementation

The design is crafted to fit the desired items precisely, and then reproduced in our lithographic department.

pre-production

Based on the design, the appropriate inglaze colors are selected and the decals produced.

decor production

Decals are carefully applied to each porcelain item and then fired in the decor kiln at inglaze temperatures.

shipping

After precise quality checks, the decorated porcelain reaches you on schedule--designed for you with dishwasher-safe, laboratory tested Bauscher decor quality

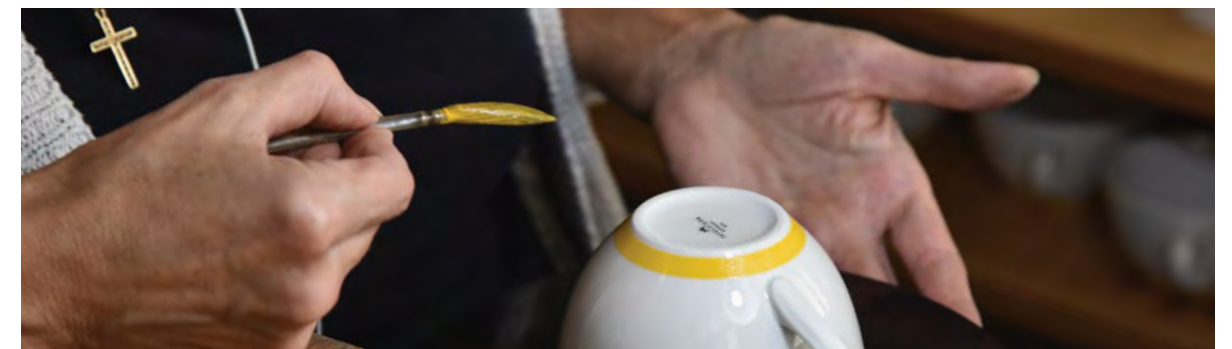

lots of possibilities

With printed decor, decals produced with a screen printing technique are soaked in water, removed from the paper, and then placed on the item to be carefully flattened with a scraper.

With spray decor, liquified color pigment is applied with an airbrush, either manually or automatically.

Painted decor uses a paintbrush to apply colored pigments mixed with oil for a handmade touch. Other decor techniques include sandblasting, vacuum metalizing, and relief printing.

noble china bone white

Noble China represents a new class in porcelain. The difference lies in the play between the subtle exclusive **Bonewhite color** and the extraordinarily intricate porcelain of the innovative new material Noble China. This revolutionary new development from Bauscher lends a remarkable delicacy to the collections. Our porcelain experts have succeeded in uniting a **graceful appearance** with a new standard of chip resistance.

Noble China

The high firing temperature of 2550 °F gives Noble China its **extreme glaze hardness** and **durability**. At once delicate but robust, this collection is ideal for daily use in hotels and restaurants. With an extensive range of articles to meet all needs, it guarantees a winning presence on the international stage.

european white

Our products use only the world's **second hardest material after diamonds**. Its ability to withstand the rigors of catering makes it perfect for professional applications. To this end, we work exclusively with premium raw materials - kaolin, quartz, and feldspar in a very special mix - at factories that are equally first rate. Our manufacturing sites are some of **the world's most modern plants**, where premium grade porcelain is indeed **"Made in Germany."**

Our porcelain's hard glaze makes it extremely **resistant to metal marking, cuts, and abrasions**. The high quality materials, extremely high firing temperatures, and optimum design ensure a high chipping resistant china. The unsurpassed quality and incomparable look and feel of this porcelain makes it the sophisticated solution that our discriminating customers seek. Porcelain with a flair for being combined.

Despite its lower pricing, you can still expect the same professional quality with Bauscher’s extra-hard glaze and unsurpassed durability. Porcelain’s extremely low porosity prevents bacteria from building up, ensuring excellent hygiene standards. Bauscher Smart lives at the intersection of style, affordability, and hygiene at a time when all three have become more important than ever before.

bentobox system

a new, modular serving option that perfectly lends itself to the fulfilment of growing hygiene demands

Hygienic serving & flexibility

Originating from Japan, bento is a popular way of serving dishes in separated boxes. The BentoBox System from Bauscher uses this idea for a new, modular serving option that perfectly lends itself to the fulfilment of growing hygiene demands. Cleverly contrived filling solutions make it easy to serve creatively presented and hygienically covered dishes absolutely anywhere.

small bentobox system
11.8" x 9.8" x 3.2"
Ideal for: pasta dishes, salads and snacks

Possible configurations

large bentobox system
17.1" x 14.6" x 3.5"
Ideal for: breakfast dishes, sushi, tapas, dishes with a variety of components

Possible configurations
