

Eagle offers the widest selection of HDPE Bollard Post Sleeves available

Eagle's HDPE Bollard Post Sleeves make old bollards look like new. High Density Polyethylene (HDPE) construction with UV inhibitors resist fading, rusting and cracking. The post sleeves are designed to easily fit over 4", 6" and 8" NPT pipe and eliminate the need for annual maintenance, while helping to protect vehicles and the post from impact damage. The unique design allows for easy slide-on installation.

UV INHIBITORS

Benefits of all Eagle HDPE Post Sleeves:

- Improves property appearance at minimal cost
- Saves on annual painting and scraping of old bollards
- Slides over existing posts for easy installation
- High-quality, all-weather HDPE – will not rust or dent
- Fade resistant with UV inhibitors
- Colors to match many exteriors
- Sleeve height may be easily trimmed for an exact fit
- HDPE thickness

Original HDPE Bumper Post Sleeves

The Original HDPE Bumper Post Sleeves have a vertical fluted design to provide extra protection and easier installation. They come 56" in length (to fit 4", 6" and 8" pipe) and are available in yellow, red, blue, white, green, orange, lime, brown and black. The 72" length Bumper Post Sleeves (to fit 6" and 8" pipe) are available in yellow only. Sleeve height may be easily trimmed for an exact fit.

Model 1730BR 6" (Brown) Bollard Post Sleeve

Poly Base

Poly bases available for 4" and 6" post sleeves to convert into poly bollard.

HDPE Smooth Bollard Post Sleeves

Eagle's Smooth Bollard Post Sleeves are available to fit over 4", 6" and 8" pipe and are available in red, yellow, blue and white (available in other colors for quantity orders). The smooth sleeves are 56" in length and provide the same maintenance-free protection as the original bumper post sleeves. Sleeve height may be easily trimmed for an exact fit.

Protective Parking Stops & Speed Bump-Cable Protectors

Eagle Parking Stops, designed with safety and durability in mind, eliminate the need for seasonal painting. Flexible enough to fit parking lot contours - the rugged HDPE Stops are weather and chemical resistant. Eagle offers four colors - the high-visibility yellow, blue for handicapped areas, gray and black. Anchor kit with three spikes and tube of asphalt adhesive included.

Eagle Speed Bump-Cable Protectors add safety to your facility. The high-visibility yellow bumps are engineered at the perfect angle. They also act as a dual channel cable protector, feature a non-skid surface, and are weather and chemical resistant. HDPE construction means you eliminate the need to continually paint bumps. The 6' anchor kit includes six spikes and a tube of asphalt adhesive. The 9' anchor kit includes eight spikes and a tube of asphalt adhesive.

Load Tested to 10,000 lbs. per Pneumatic Tire

Poly Guide-Post Delineators™ & Poly Bollard Post

Poly Guide-Post Delineators™

Lightweight, portable, yieldable HDPE posts used to warn, guide and delineate. Feature 3"-wide reflective bands for increased visibility and are MUTCD compliant. Posts are mounted on a 10" sq. poly plate with anchor slots (3/4") for permanent use or used with steel base for portable stability.

Poly Bollard Posts

Create a low-cost, maintenance-free caution zone. These 42"-high poly bollards are available in a 5" or 7" model with a poly base with anchor slots (3/4") that can be anchored for maximum stability or used with optional weighted steel base.

Safety Clearance Bars

Eagle introduces two safety clearance bars for use in drive-thrus, parking garages and much more. Clearance Bars provide an early warning for motorists, reducing structural and vehicle damage. This is even more necessary as SUVs and pickups have grown in size. The Clearance Bars are constructed of high-visibility yellow polyethylene and are available in 72" lengths in either 5" or 7" outside diameter. Both come with eyebolts for easy installation (chain not included).

Clearance Bars
