

ESPRESSO MACHINE

236ECEM1, 236ECEM2, 236ECEM3

Estella Caffé equips businesses with the convenience and quality of high-end coffee equipment at a fraction of the cost of other brands. The Estella Caffé automatic espresso machine can help create one-of-a-kind hot beverages.

A great addition to cafes, restaurants, and coffee shops

EASY TO USE

The user-friendly controls are simple to use in busy coffee shops and cafes. Its dual pressure gauge provides readouts for water and steam pressure so staff can easily tell when the machine is ready for use. Each machine also includes a single and double portafilter to meet your needs.

PROGRAMMABLE SETTINGS

This automatic espresso machine can dispense a single or double espresso with the four easily programmable settings.

CONTINUOUS FLOW

Each unit features a continuous flow option for enhanced versatility, simply press the button once to begin and a second time to stop.

STEAM WAND

Each machine features a steam wand which makes frothing milk quick and easy.

AUTOMATIC CLEANING

In order to reduce maintenance, this machine comes with an auto cleaning function so you know your unit is always running at peak condition without the hassle of cleaning manually.

DURABLE DESIGN

Each unit is built with a stainless steel heat exchange boiler that ensures temperature stability and quick recovery for pulling the perfect shot.

SPACE-SAVING STORAGE

This unit features a top storage area, which helps you save valuable space by storing cups on top of the unit. This also ensures that cups will be warm when ready to use.

FITS ASSORTED CUPS

This unit features a 5 in. clearance between the grate and the portafilter to accommodate a variety of different espresso cups.

QUICK ACCESS TO PRODUCT LITERATURE

A scannable QR code located on each espresso machine allows users to easily access relevant product manuals, spec sheets, videos, and more online.
