

GRINDER PUMPS

802

Fractional HP Grinder Series built with the homeowner in mind. All cast iron motor and discharge designed for difficult residential applications where ejectors struggle. Handles entire household of "flushable" materials without commercial cost. The 2" discharge makes it easy to change out any solids handling sewage pump.

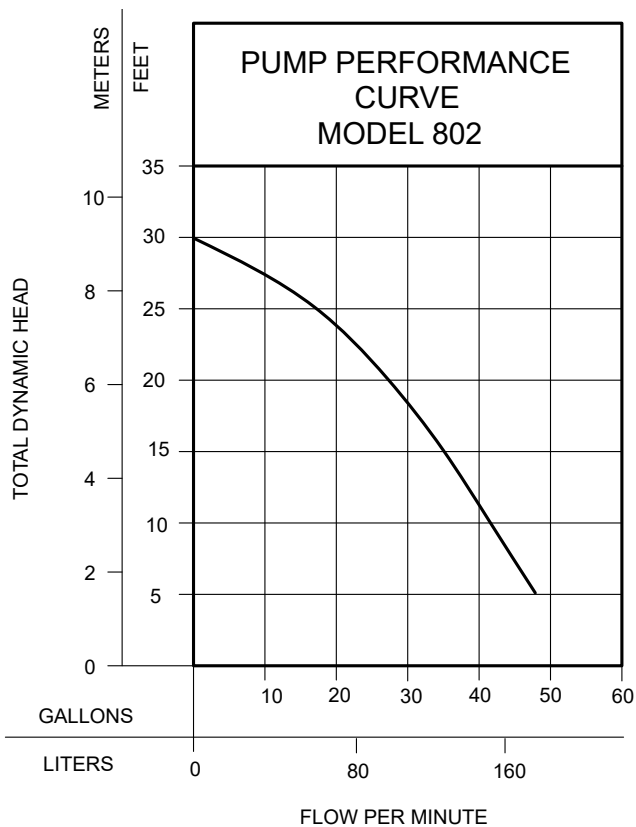

APPLICATIONS :

- Residential wastewater

SPECIFICATIONS:

- 2" NPT discharge
- Integral automatic float switch
- Oil-filled for optimal heat dissipation
