Reed Sensor Models
10-4011 APak® Standard
10-4013 APak® Z Control®

Mechanical Float Switch Models
10-4012 APak® Standard
10-4014 APak® Z Control®

Notes:

Either the Standard or Wi-Fi APak can be used to monitor nearly any switch or pair of dry contacts.

For sewage applications, the models with mechanical float switch are recommended (10-4012 and 10-4014).

If a direct wired alarm is required, use 91104-0001, APak Outdoor with 15' mechanical float switch, OR 91104-0002, APak Outdoor with pre-wired 6' power cord and 20' mechanical float switch.
