

More than you expected.

Goff's

High Performance Doors

Increase efficiency & productivity in your facilities.

Easily access your space and maximize efficiency at your facility.

Doors are often an overlooked opportunity for increased productivity and savings in a facility. They can be impactful to improving your employee's environment, increasing plant efficiency, and keeping areas separate and focused on the job at hand. With an array of premium features standard, Goff's High Performance doors provide the complete door solution.

Breakaway Design

Goff's door design provides easy breakaway capability with auto-reset in the case of an impact, keeping you up and running.

Built for your Future

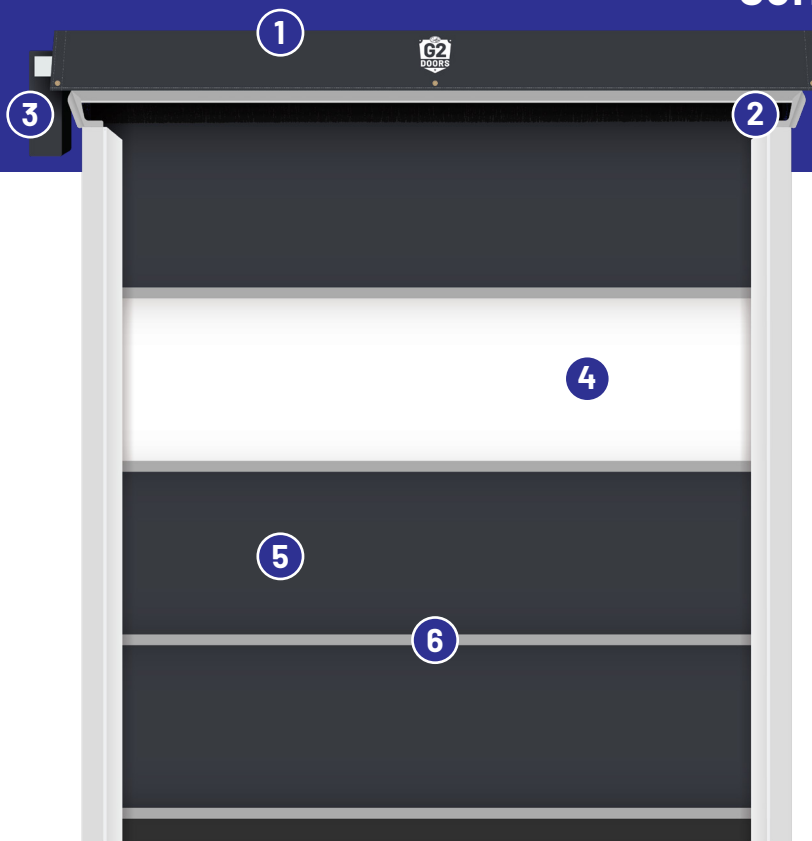

Reduce downtime and cost of ownership with Goff's easy-to-replace and affordable panels, maximizing your ROI.

Control your Environments

Your spaces are designed to work best for what they contain. High performance doors reduce cross contamination and control individual environments efficiently.

Goff's Standard Features Package:

We believe excellence should come standard. That's why every Goff's High Performance Door comes with our standard features package:

- 1. Full Width Roll Cover** provides environmental separation & protection for your door.
- 2. Auto-reset after impact** included to reduce downtime or costly service calls.
- 3. Auto-close timer** ensures maximum environmental control at your facility.
- 4. Full-width window** included for increased safety and visibility in your facility.
- 5. Easily replaceable door panels** are quickly shipped and affordably priced if worn or damaged.
- 6. Fiberglass wind bars** resist bending, breaking, or taking a permanent set when impacted.

Increase profitability & convenience at your facility.

Our G2 high performance doors are available with the options you want and the reliability you need for your facility. Whether you are looking for a high speed door fully integrated with your building's safety systems, or simply a reliable door to separate your spaces, G2 doors minimize downtime and maximize profitability in your facility.

10'x10' door with red, vision, gray, and blue replaceable panels.
