HOSHIZAKI

STEELHEART® | REFRIGERATION
SUPERIOR REFRIGERATION PERFORMANCE

R290 hydrocarbon refrigerant, combined with Hoshizaki's unique, ducted airflow technology, ensures that your food products remain fresh, nutritious, and safe.

Hoshizaki's exclusive design distributes cold air through a system of louvered ducts positioned throughout the cabinet.

Constant air movement circulates top to bottom and at each individual shelf to surround food with uniform cool temperatures.

Engineered to maintain
NSF-7 temperatures
in 100°F ambient.
Certified to NSF-7 temperatures
in 86°F ambient.

HOSHIZAKI

STEELHEART® | REFRIGERATION
DURABLE, SUSTAINABLE CONSTRUCTION

Space Saving Design

Designed with front breathing ventilation, our compact units require zero clearance at sides and rear

Durable & Convenient Door Features

- ▶ Exclusive “stepped” design protects the door gasket
- ▶ Field reversible doors are easy to convert without a kit
- ▶ Spring hinge will self-close or stay open at 90° for ease of access

Energy Efficient

- ▶ R290 Hydrocarbon refrigerant is environmentally friendly
- ▶ 2” foam insulation throughout the cabinet and doors means a more energy efficient unit

Solid Construction

- ▶ Stainless steel exterior is clean, durable and corrosion resistant
- ▶ Stainless steel interior walls & floor with coved corners are easy to clean

Pan Rail and Cutting Boards

Rails accommodate up to 6” deep pans and are provided with a full complement of plastic 1/6th size pans – 4” deep, adapter bars, prep guard and cutting board.

Megatop refrigerators have an extended top for better durability & support of cutting board.

HOSHIZAKI

STEELHEART® | REFRIGERATION
SIMPLE OPERATION AND MAINTENANCE

Electronic Controls (Rear mount refrigeration models)

- ▶ More precise temperature control helps keep food fresh longer.
- ▶ Delayed evaporator fan restart coming out of defrost prevents warm air from being distributed into the cabinet.
- ▶ Time delay on compressor during start up prolongs compressor life expectancy.

LED Digital Display (PR & CR models only)

Solid state digital controls monitor the operation and performance of the refrigeration system. The controls also provide visual temperature and voltage alarms.

Energy efficient LED interior lights with on/off switch (glass door undercounter models only)

ANSI, NSF, UL/ETL

Our products surpass the most stringent tests in the foodservice industry - our own! Each HOSHIZAKI refrigeration product must pass 24 quality performance test standards, is run tested on the line and approved by Quality Control before it can be sold.

HOSHIZAKI is an ENERGY STAR® Award winner since 2012.

- ▶ Partner of the year in 2013 & 2014
- ▶ Sustained Excellence Award winner in 2015 - 2023

HOSHIZAKI

STEELHEART® | REFRIGERATION CHEF BASES

CR36A

CR49A

HOSHIZAKI's integrated ceramic heat shield assures your food products are cool and safe during blazing hot cooking!

Our innovative technology helps you optimize your kitchen efficiency with a two-in-one chef base – extra-large top space for cooking equipment plus high performance, cold storage drawers. Made of heavy duty stainless steel, all drawers hold 6" deep pans that are easy to lift out. Available in 36"–110" width options.

- ▶ **Built-in ceramic heat shield protects food from high heat**
- ▶ **Stainless steel interior and exterior front, sides and top**
- ▶ **Heavy duty 16 gauge stainless steel top with maximum top surface area**
- ▶ **Solid state digital controller with temperature alarms and LED display (Fahrenheit or Celsius)**
- ▶ **Drawers will accommodate 6" deep pans**
- ▶ **90° side edges maximize top surface area and stability for cooking equipment. Marine edges on both front and back allow for easy cleaning.**

FEATURES & BENEFITS

PIZZA PREP TABLE MODELS

11 MODELS - INCLUDING 2 NEW 60-INCH OPTIONS

Night/Day Mode

When lid is open, set point drops to keep food cool in rail; when lid is closed, set point returns to normal so food can stay in rail overnight without freezing.

Removable Air Filter

Easy cleaning and better operation.

Optimal Airflow in Rail

Back to front airflow surrounds each pan for consistent cooling.

Dual Controller System

For ideal temperature in both rail and cabinet; adjustable for every operation.

HOSHIZAKI

STEELHEART® | REFRIGERATION MEGA TOP PREP - Divider Bars & Pans

Center divider bars have notches to accept interlocking side divider bars.

- Provides stability for pan placement by preventing side bars from sliding out of position that could allow pans to fall into cabinet below.
- Increased flexibility for user because center notches allow user to easily re-configure bars to accept desired pan sizes for their unique menu.
- Made of high quality stainless steel insures long life.
