

GAS

BROILERS | STEAKHOUSE BROILER AND RADIANT COUNTERTOP SMOKE BROILER

IABR-36 STEAKHOUSE BROILER FEATURES

- 3 position cooking grate creates three heat zones providing a wide range of cooking temperatures.
- Stainless steel front and sides, stainless steel cabinet interior on floor models.
- Insulated throughout to conserve energy
- 3" (76) wide removable stainless steel grease can for easy cleaning.
- Full width drip pan.
- "Easy tilt" handle adjusts cooking grate easily even when fully loaded with product.

IABA-36 RADIANT SMOKE BROILER FEATURES

- Individually controlled 20,000 BTU/hr. (6 KW) stainless steel burners located every 5" (127 mm) with individual controls.
- Removable, reinforced cast iron radiants prevent clogging of burners and provide even broiling.
- Standard cast iron radiants provide maximum heat retention and intense surface temperatures.
- Heavy duty cast iron top grates provide attractive char-broiler markings.
- Top grates are in sections to remove easily and safely for cleaning. No tools are needed to remove grates, radiant covers and stainless steel burners for cleaning.
- 81/4" (210) high stainless steel splash guard.
- Cooking surface provides a range of cooking temperatures.
- Stainless steel front, sides and landing ledge for cleanability and a professional look. Seams are welded and polished.
- Slide out stainless steel log holders 7" x 20" (178 x 508) are located above the 3" (76 mm) deep removable ash pans.
- Open, easy access to log holders and ash pans.
- Control knobs are durable cast aluminum with a Velox™ collar for a heat protection grip.
- Full width grease gutter.
- Insulated throughout cooktop to conserve energy.
- One year parts and labor warranty.

SMOKE SYSTEM

Slow smoldering design allows logs and wood chips to last longer than direct burning, continually infusing smoke flavor into the broiled product.

LOG METHOD

Logs smolder in log holders enveloping food in smoke for flavor.

WOOD CHIPS METHOD

Wood chips are placed in log holders in lieu of logs to smolder and smoke.
