

INTERLAKE MECALUX TEARDROP NON-SLOTTED PALLET RACK BEAMS

The Interlake Mecalux **non-slotted teardrop pallet rack beams** provide versatility for warehouse that have wide varieties of product types. It is the horizontal component of the teardrop pallet rack shelving system.

Teardrop Design

- Simple shelf adjustment at 2" vertical intervals with teardrop punch design.
- Beams can be connected to Interlake Mecalux **bolted** or **welded** teardrop upright frame design.

Non-Slotted Profile

- Non-slotted beams allow a smooth interior surface.
- Piston lock connectors allow a secure connection to the teardrop upright frame.
