## THE KASON MISSION:

### TO PROTECT YOUR PRODUCT INTEGRITY

Our customers go to great lengths to build top-of-the-line coolers, freezers, foodservice equipment, industrial enclosures and delivery vans. Our goal is to preserve your product integrity by providing the highest quality door hardware and accessories for both original equipment and replacement applications.

End users need to protect products and processes, and lower operating costs. Their first line of defense is stable, airtight enclosures with doors that open with ease and close securely.

Since 1926, Kason has promised and delivered just that. Kason's extensive lines of walk-in and reach-in door hardware satisfy the most demanding requirements. Demonstrate the value of your products with the most innovative, dependable and longlasting hardware in the business.

### RESEARCH AND TESTING

Every Kason product must fulfill our customers' requirements. Before we develop a new product, we research the needs of both our industry and end users. We are never satisfied with the status quo. Our dedicated research and development staff continually search for pioneering design concepts. They insist on engineering integrity, extensive product testing and precise, in-line quality control. That is how we have developed such successful and trustworthy products as SafeGuard® inside releasing safety latches, Pacesetter handles and hinges, stainless steel hinges and latches and truck door handles with removable cylinder locks.

### CREATIVE CONCEPTS

Leading equipment manufacturers turn to Kason when they want a unique look of their own. We will adapt a stock product, design custom hardware or partner with your design engineers to develop a signature appearance just for your products. Building special and customized hardware is routine at Kason.

### QUALITY

Kason production facilities boast state-of-the-art installations, featuring fully automated die-casting, polishing and electroplating, as well as a full range of electronically controlled and robotic machinery. We require the finest raw materials, accurate machine tolerances and the highest level of finishing. Skilled, experienced people maintain the Kason tradition of production excellence. Our unrelenting commitment to superior manufacturing assures you consistently high quality products at the lowest possible cost. Quality assurance is integrated into every step of Kason operations – from engineering research and development through packaging and shipping.

### SERVICE

The lifeline to all your foodservice needs is our efficient and friendly Customer Service Department. A representative can quickly track product availability or the status of your order with our computerized inventory and order control system. Count on dependable global delivery as we serve you from Kason distribution centers in the continental United States and Canada as well as through authorized distributors throughout the world.

### OUR PROMISE

Satisfying your needs is our top priority. That is why Kason supplies you with hardware and accessories that reflect the same quality you demand in your own products. We strive to demonstrate an attitude that makes you want to do business with us. At Kason we offer a tradition of excellence, a philosophy of innovation and the most trusted name in specialty commercial hardware.

## TRAPPER™ COLLECTS MORE GREASE, LASTS LONGER

- Two-piece construction combines baffle plates and frame into one solid metal unit; no loose baffles to rattle or fall out
- Standard commercial sizes in solid stainless steel, light weight aluminum and economical galvanized steel
- Stainless steel and aluminum models meet NSF criteria for safety and sanitation.
- Smooth, aerodynamic baffles pick up more airborne grease and promote better drain-off.
- Rated 96.4% in UL Canada Grease Collection Efficiency test
- Solid baffle construction ensures a dependable flame barrier.
- Efficient grease removal reduces risk of flare-ups.
- Strong, light weight Trapper™ is easier to handle, install and clean.
- Greater strength and durability mean longer life and fewer costly replacements than ordinary baffle-type filters
- Easy installation and fast clean-up reduce maintenance costs
- Fully interchangeable with existing filters
- Two stainless steel snap-in drop handles supplied

# BAFFLE TYPE GREASE FILTERS

## STANDARD COMMERCIAL SIZES, THREE MATERIAL CHOICES

- STAINLESS STEEL provides top protection against rust and corrosion in heavy duty commercial applications.
- ALUMINUM is lightweight and easy to handle.
- GALVANIZED STEEL is tough, strong, corrosion resistant and economical.
- Safety first with positive flame barrier protection.
- Smooth, seamless surfaces allow continuous grease run-off into collection troughs.
- Clean with ease in dishwasher, by soaking or spraying.
- Kason baffle filters can directly replace mesh filters in most canopy hoods.
- Locking handles available for all sizes.

## FOR HI- AND LO-TEMP FOODSERVICE USES

- Premium grade, fully certified silicone adhesive sealant outperforms cheap hardware store brands
- Waterproof adhesive bonds better than generic sealants; won't peel; reduces service call-backs for leaks
- Air-cures overnight; tack-free in 15 minutes
- Standard and high temperature formulas
- Meets Federal and NSF standards for foodservice use

## EASY TO USE

- RubbaSeal™ adhesive sealant won't sag during application. Apply vertically, horizontally or overhead
- One-piece, 10-oz. rigid plastic cylinder fits all standard caulking guns.
- Flexible, 3-oz. tube is ideal for small jobs and tight spaces.
- Nozzle is removable for easy cleaning and reuse after tube is opened.

## TEMPERATURE RANGES

- Standard formula is serviceable from -80° F to 400° F. (-62° to 204° C). High temperature formula is heat resistant to 500° F. (260° C).
