BEACON LIGHT LE970LED 50W PORTABLE LED FLOODLIGHT

The 50W Beacon Light is a very bright industrial weatherproof LED flood light designed for the toughest locations. A first of its kind, the Beacon Light projects a wide, shadow-free flood of crisp, white light. The high quality LEDs are rated for over 50,000 hours (over 5 years of 24/7 use), meaning you never have to change a bulb. Additionally, the LED technology means an instant start in even the coldest locations, and the fixture never heats up.

The 50W Beacon Light provides 5,000 lumens of light (usable light equivalent to a 500W quartz halogen) directly on your workspace – no wasted light that you get when using 'bulb' technology. A 500W quartz halogen can reach over 570°F/299°C while the Beacon Light produces the same light but only reaches 89°F/32°C.

APPROVALS: cETLus and CE Certified

LED: 50W high output integrated LED array.
Rated for over 50,000 hours.

LIGHT OUTPUT: 5,000 lumens

LIGHT TEMPERATURE: 4500K (bright white light
– no blue tint)

SURFACE TEMPERATURE: 15°C above ambient

VOLTAGE RATING: 120V, 240V AC or 24V DC
(call for P/N)

ENVIRONMENTAL RATING: IP65 weatherproof

WEIGHT: 10 lbs (light head only)

CONSTRUCTION: Cast aluminum housing with powder-coat yellow
paint. 15' 16/3 SJOW cord, black.

LE970LED	light head and yoke
LE970LED-TR	4-8' tripod unit with single light head
LE970LED-TR-HD	4-8' heavy duty tripod unit with single light head
LE970LED-TD	4-8' tripod unit with double light head and individual switches
LE970LED-FS	floor stand unit with light head
LE970LED-MAG	light head with two 130 lb pull-strength magnets on the yoke
LE970LED-CLAMP	light head with ladder/scaffold clamp

Add -PL to the part number to have virtually indestructible polycarbonate lens installed instead of tempered glass
