***Support bracket () prevents tipping when used in SR-2, SR-3 or SR-4 bases.**

Be sure to select the correct pump for your jar – pumps for shallow jars have a shorter cylinder than those for deep jars

CP models (b) have unformed tube ends, whereas FP models (c) have formed ends to hold back thin product drips

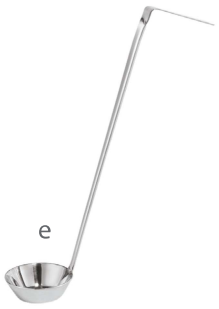

DI models have a 3-inch-taller spout for additional serving clearance

Ladles

- Stainless steel construction with a 1-oz capacity
