Crash Protection Solutions

SlowStop® – Incredible Stopping Power Increases Safety & Reduces Pedal Error Damage

We offer you exceptional solutions to protect you and your customers from pedal error accidents without expensive installations or costly concrete-cored solutions.

Using our patented rebounding technology, we have engineered a 5" round base steel bollard that can specifically withstand high impacts. This design **STOPPED the ASTM F3016 surrogate 5,000 lb vehicle at 10.4 mph*** without a scratch, leaving it ready to perform again.

With their top-level performance, our bollards have proven to be among the best in the industry, making them a safety game-changer.

Take a look at the variety of applications our bollards are ideal for, the benefits, and the product specifications.

Versatile Applications

- Storefronts
- Exterior Perimeters
- Signage
- Fuel Pumps
- Utility Protection

Benefits

- Simple Installation
- Instantly Operational
- Easy Relocation & Retrofitting
- Increased Pedestrian Safety
- Reduced Damage
- 2-Year Manufacturer Warranty

**Feq = 13,250 lbf @ 36" height*

5" Rebounding Steel Bollard

This robust unit will remain upright despite significant impacts, rivaling traditional embedded bollards. The quick installation and elimination of concrete repairs sets it apart from other bollards.

Color	Yellow or Stainless Steel
Diameter	5.56" (5" ANSI schedule 40)
Height	42"
Product Weight	110 lb
Energy Absorption	14,000 joules / 10,326 ft-lb
Stopping Power	5,000 pounds @ 10.4 mph
Temperature Rating	-40°F
Pipe Coating	60 µm Galvanized + 150 µm Polyester Outdoor Powder Coating
Cast-Iron Coating	Environmentally Friendly Water-Based E-Coat + Polyester Outdoor Powder Coating
Set Screws	Six (6) M16
Anchor Screws	Six (6) 3/4" x 5-1/2" Concrete
Cap	Cast Aluminum Dome

4" and 6" Rebounding Steel Bollard

We also offer 4" and 6" rebounding steel bollards that are ideal for exterior perimeter guarding. The 4" bollard is a great solution for low speed car impacts, while the 6" bollard is geared towards taking impacts from heavy applications such as delivery trucks and semi-trucks.

SlowStop® Sign Post

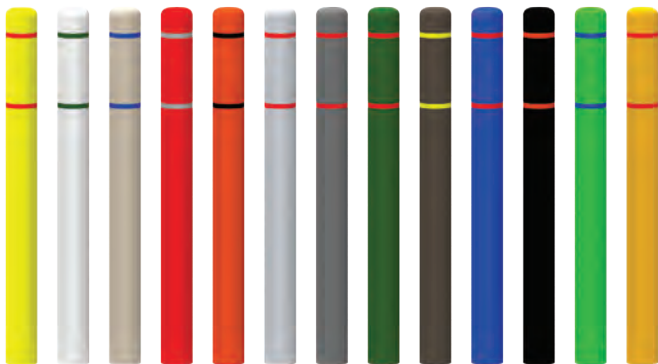

Tired of replacing signs? Our resilient sign post bollard is strong enough to eliminate traditional wheel stops and prevent major damage.

Available Options	
Size	78" or 102" tall
Bollard Compatability	4" or 5"
Sign Message	Handicap; Handicap with Van Accessible
Options	No sign with brackets only

Bollard Covers

Need a specific color to match your branding? Want to increase bollard height? Our bollard covers come in a plethora of colors and are sized to fit over our rebounding steel pipe bollards.
