Wall Builder

What is SmartWall®?

Maximize Vertical Space and Optimize Workflow with Metro's SmartWall®

Tight back of house environments and cluttered workstations slow productivity and limit efficiency. **Metro's SmartWall® Wall Shelving System** is designed to reclaim valuable surface space by vertically organizing essential tools and supplies, keeping everything within reach, clearly visible, and off the work surface.

By elevating items you use most, SmartWall® transforms prep areas into clean, functional work zones, allowing countertops to remain dedicated to tasks, not storage. This streamlined setup supports faster workflows, better sanitation practices, and a more productive kitchen environment.

SmartWall® sorts and organizes kitchen tools and utensils above sinks to prevent wet nesting and promote safe air drying.

- **Improves Productivity**
- **Promotes Food Safety**
- **Remain Clutter-Free**
- **100% Rust-Proof Options**
- **Repositions in seconds**

BEFORE

AFTER

SmartWall® Kits

We made it easy to find the right solution by offering Easy Order Kits designed for popular applications.

EASY ORDER WITH ONE PART #

Complete Kits

Includes the **base unit** (track, uprights, grids, and shelves) and **accessories** that are top sellers in this application allowing for greater customization.

or pick a base unit and pair it with our accessory kits.

Wall Shelving Kits

Create cantilever shelving wall storage.
No grids or accessories included.

SmartWall® Life
with Stainless Steel & Advanced Polymer

Never Rusts

SmartWall Life is a lifetime wall solution that combines the benefits of Metro stainless and the cleanability of MetroMax polymer shelving.

NSF®

For all Environments

Prep Areas **Storage Rooms** **Above Sinks, Work Tables or Equipment**

Metro SmartWall® Advantages:

Robust Design:
Steel wall & shelf supports provide the confidence to safely store heavy items.

Easy to Install:
Once the tracks are installed level, shelving and task stations can be quickly configured.

Cleanable, Durable Finishes:
SmartWall® Life – Stainless steel structure & all-polymer shelves for a never-rust solution. Plus, Super Erecta with Metroseal epoxy finishes are perfect for all environments, with built-in Microban® antimicrobial product protection.

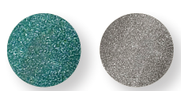

Repositions in Seconds:
As needs change, shelves, grids, and accessories reposition easily without tools.

SmartWall®
with Metroseal Epoxy Coating

Durable Finishes

Metroseal epoxy finishes are perfect for all environments with built-in Microban antimicrobial product protection.

SmartWall® Dimensions

Dimensions apply to both SmartWall® Life and SmartWall®

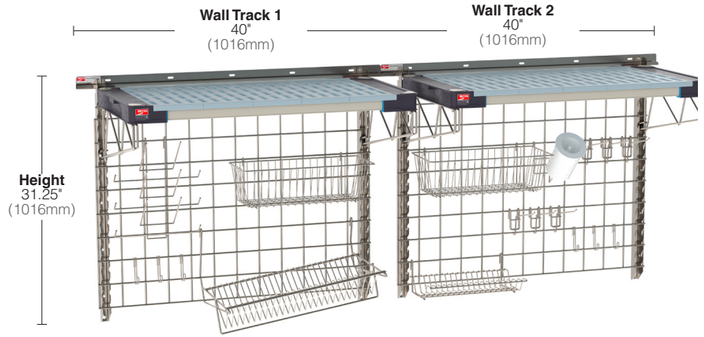

One Shelf Models
Complete Kits and Base Kits

Overall actual length is determined by the wall track.
40" (1016 mm) wall track is used with 36" (914 mm) long shelves.
56" (1422 mm) wall track is used with 48" (1219 mm) long shelves.

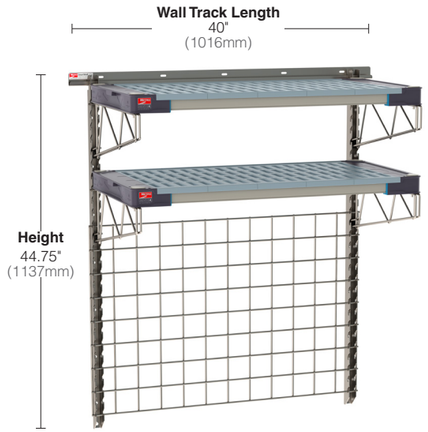

Double-Wide, One-Tier Models
Complete Kits and Base Kits

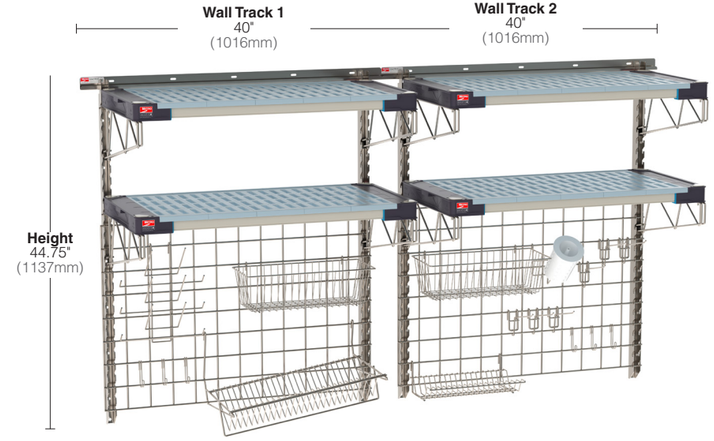

Overall actual length is determined by two connected wall tracks.
The kits include two tracks and four uprights to create two independent units which *may* be spaced apart.
If tracks are installed end-to-end the overall length is 80".

Two-Shelf Models
Complete Kits and Base Kits

Double Wide, Two-Tier Models
Complete Kits and Base Kits

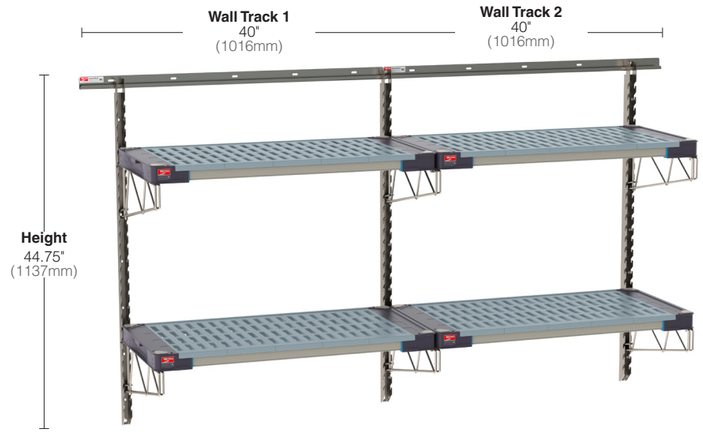

Two-Shelf Models
Shelving Kits

Overall actual length is determined by the wall track.
40" (1016 mm) wall track is used with 36" (914 mm) long shelves.
56" (1422 mm) wall track is used with 48" (1219 mm) long shelves.

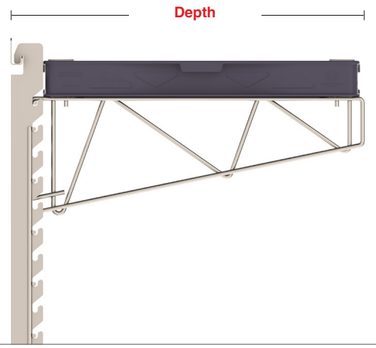

Double-Wide, Two-Tier Models
Shelving Kits

Overall actual length is determined by two connected wall tracks.
The kits include two tracks and three uprights.
The tracks are installed end-to-end.
The center upright is shared.

Determining the Depth

Actual Depth is measured from the wall to the front edge of the shelf support.
Complete Kits, **Base Kits** and **Shelving Kits** with **18" deep shelves measure 20.625"** (524 mm)
Shelving Kits with **21" depth shelves measure 23.625"** (600 mm)

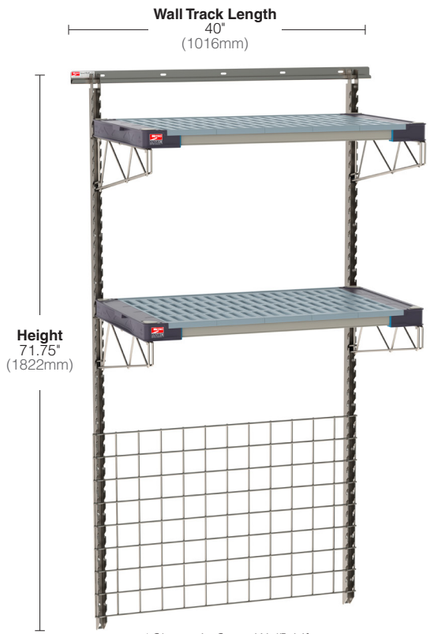

SmartWall® Dimensions

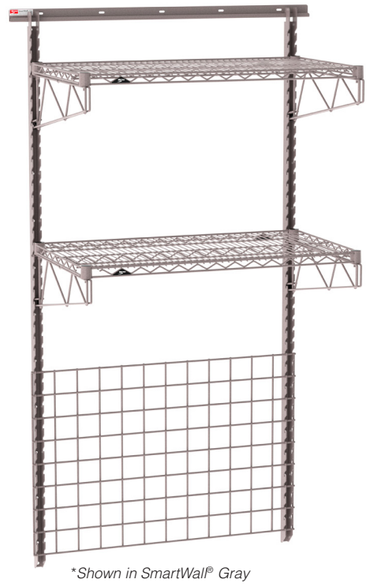

Dimensions apply to both SmartWall® Life and SmartWall®

Tall Base Kits, Two-Shelf

Overall actual length is determined by the wall track.
40" (1016 mm) wall track is used with 36" (914 mm) long shelves.
56" (1422 mm) wall track is used with 48" (1219 mm) long shelves.
Tall Base Kit is only available with 21" deep shelves.

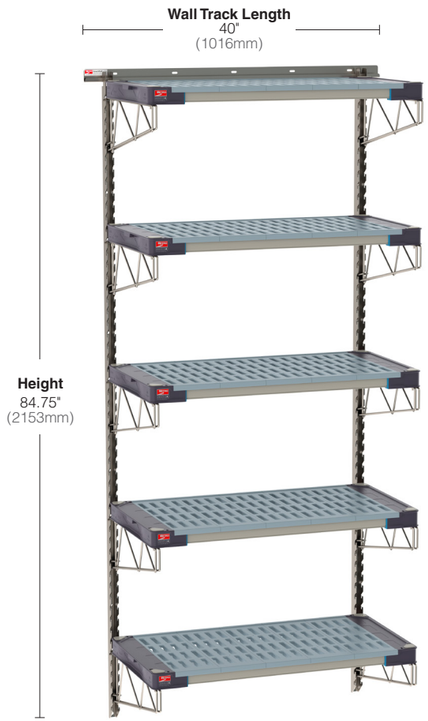

*Shown in SmartWall® Life

*Shown in SmartWall® Gray

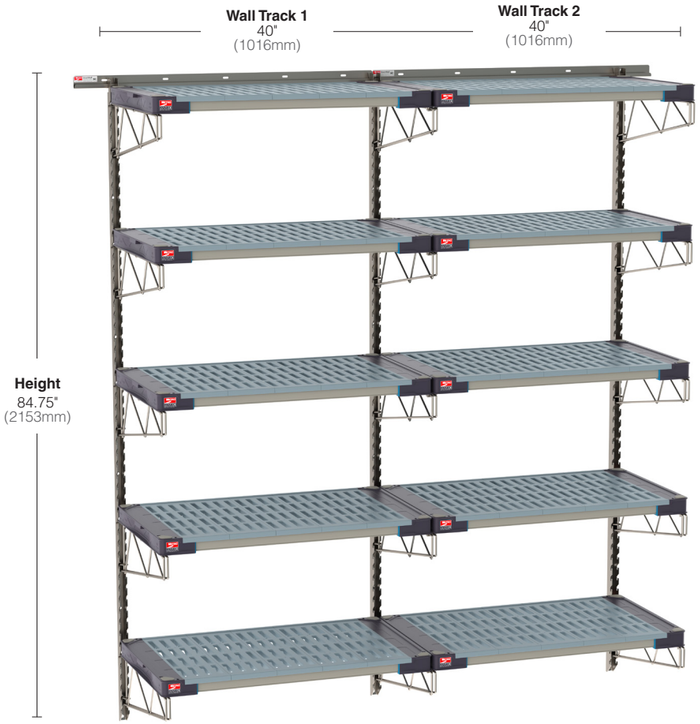

Five-Shelf, Wall Shelving Kit

Overall actual length is determined by the wall track.
40" (1016 mm) wall track is used with 36" (914 mm) long shelves.
56" (1422 mm) wall track is used with 48" (1219 mm) long shelves.

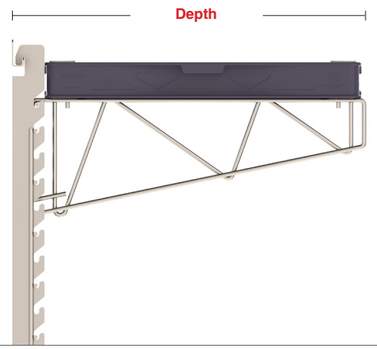

Double-Wide, Five-Tier, Wall Shelving Kit

Overall actual length is determined by two connected wall tracks.
The kits include two tracks and three uprights.
The tracks are installed end-to-end.
The center upright is shared.

Determining The Depth

Actual Depth is measured from the wall to the front edge of the shelf support.
Complete Kits, **Base Kits** and **Shelving Kits** with **18" deep shelves measure 20.625"** (524 mm)
Shelving Kits with **21" depth shelves measure 23.625"** (600 mm)

SmartWall® Specifications

Specifications

	SmartWall Life	SmartWall – Metroseal Finish	Details
Wall Tracks	14-gauge Type 304 Stainless Steel	12-gauge cold-rolled steel	Obround mounting holes located at 8" (204 mm) increments; first and last holes are located 4" (102 mm) from the ends of the track; obround hole dimensions (1/8" x 3/4" [3 x 19 mm]). Wall tracks include stop fasteners for the ends of the tracks and joiner plates for connecting adjacent tracks.
Uprights	14-gauge Type 304 Stainless Steel	12-gauge cold-rolled steel	Uprights are slotted every 1-1/2" (38 mm); 1-1/8" (29 mm) diameter mounting holes are spaced every 6" (152 mm) along the upright.
Shelf Supports	Electropolished Type 304 stainless steel	Cold-rolled steel	Sleeve is high-density polyethylene (HDPE)
Wire Grids	Electropolished Type 304 stainless steel	Cold-rolled steel	1/4" diameter wires; grid pattern from the center line of each wire measures 3" x 3" (76 x 76 mm)
Grid Bracket Kits	14 gauge Type 304 Stainless Steel		

Weight Capacities
