LARGE WASTE BIN

TAA Compliant shredders contain extra large waste bins so you can spend less time emptying, and more time shredding. Waste bins range in size from 30 gallons, all the way up to 59 gallons.

HIGH SHEET CAPACITY

TAA shredders can shred more sheets at a time to move through large jobs with ease. Jam-Stopper® technology detects jams. Lights on the control panel warn if sheet capacity is exceeded to reduce risk of jams.

SHREDS MORE THAN PAPER

TAA shredders provide industrial strength shredding that rips through more than just paper. The cutters can shred CDs/DVDs, credit cards, paper clips and staples quickly and easily.

(excludes CHS10-30; CM11-44 can not shred CDs)
