World Centric Staff Retreat, Fall 2023

Get to Know World Centric

World Centric is more than a compostables company. Founded in 2004 by Aseem Das as a non-profit, we started with a mission to raise awareness about global inequalities, poverty, and environmental degradation. Aseem was driven by the harsh reality that billions live on less than \$2 a day, lacking basic necessities like food, water, and healthcare.

Initially focused on documentaries and sustainability courses, World Centric evolved into a leading manufacturer of compostable products for the foodservice industry. We believe in the power of plant-based packaging to drive a circular economy and reduce reliance on single-use, petroleum-based products.

At World Centric, we don't just sell compostables; we model sustainability by supporting grassroots organizations, ensuring fair wages and safe working conditions, and powering our office with renewable energy. Our team is united by a mission to make a positive impact.

Our catalog offers a wide range of certified compostable products, including plates, bowls, cups, cutlery, and takeout containers. Each item is designed to reduce environmental impact and promote a sustainable future.

By choosing World Centric, you're not just selecting high-quality, eco-friendly products—you're joining a movement for a more equitable and sustainable world.

Learn more about our business model at worldcentric.com.

Sustainable Business Certifications

Public Benefit Corporation

As a Benefit Corporation since 2013, we prioritize the impact of our business on society and the environment. Benefit corporations create a measurable positive impact on all stakeholders, including employees, vendors and the community at large.

Certified B Corporation

As a certified B Corporation since 2010, World Centric meets rigorous standards of social and environmental performance, accountability, and transparency. Learn more at [bcorporation.net](https://www.bcorporation.net).

Other Key Memberships

See back page for our sustainable product certifications.

World Centric's Mission: Giving 25% of Profits

Did you know that in 2022, 685 million people lived on less than \$2.15 per day, struggling to access basic necessities like food, water, sanitation, education, and healthcare? Climate change worsens their situation, leaving these communities with few resources to adapt.

Since 2009, World Centric has donated 25% of our annual profits to grassroots organizations addressing social and environmental injustice in these areas. We believe a better world begins with ensuring access to basic needs and economic opportunities.

Below are our giving numbers to date since the inception of our program in 2009:

\$17M+

Total Giving Since 2009

Includes Impact Giving, Regional Giving, Carbon Giving and Product Donations

315+

Programs & Projects Funded

Projects Span the Globe, Targeting Areas with the Greatest Need

With profits from FY 2023, World Centric provided grants to the nonprofits listed below. Through our giving, we aim not only to provide assistance but to help drive systemic change at the root of these issues. See our feature on Shared Action Africa on page 46-47. BAMBOO AND FIBER CUTLERY

World Centric's bamboo and fiber cutlery gives operators more sustainable choices to offer their customers for takeout. Made from fast-growing renewable plants, not plastic, our cutlery helps lessen our reliance on fossil fuels and cuts down on plastic waste.

Why Choose Bamboo Cutlery?

- Made of 100% FSC® Certified Bamboo
- USDA Certified 100% Biobased
- Suitable for hot or cold foods
- No lamination or compostable plastics
- CMA® composter approved and can be discarded with yard trimmings

A woman with long brown hair, smiling, wearing a blue and white striped sleeveless top and large gold earrings. She is holding a white cardboard tray with four light-colored paper cups, each with a white lid. The background is slightly blurred, showing green foliage and a dark structure.

NOTREE® PAPER CUPS AND LIDS

Our NoTree® paper cups are made from bamboo fiber as an alternative to tree fiber. NoTree products are sturdy and have a bio-based lining to prevent leaking. They are the perfect alternative to traditional paper and polystyrene cups and bowls that aren't recyclable or compostable.

NOTREE® PAPER HOT AND COLD CUPS

NoTree cups are made from bamboo fiber with a bio-based lining and are great for cafés, ice cream shops, delis and quick-serve restaurants as a sustainable replacement for paper cups with a petroleum lining which aren't recyclable or compostable.

Note: Paper cups, lids and straws have no added PFAS.

PLA CUPS, LIDS, SALAD BOWLS AND CLEAR CONTAINERS

PLA (polylactic acid) products are made from plant sugars which are turned into lactic acid through fermentation, then converted into a polymer. Manufacturing PLA produces 75% fewer greenhouse gases and uses 50% less non-renewable energy compared to conventional plastics made from petroleum.

Elevate Your Brand with Custom Packaging

Stand out with our innovative, plant-based packaging solutions that enhance your brand's sustainability. Our expert team creates tailored CPG solutions for health & beauty, cosmetics, wellness, home goods, and food & wine, designing packaging that reflects your brand's identity and values.

Sustainability is Creative

Partnering with creative and operations teams, we help realize your brand vision; from conceptualizing and visualization to prototyping and manufacturing.

SUSTAINABILITY IS ELEGANT

SUSTAINABILITY IS ICONIC

SUSTAINABILITY IS PRECISE

SUSTAINABILITY IS PLAYFUL

Innovation at Your Fingertips

By merging plant-based materials with exceptional design, engineering, and manufacturing processes, we create packaging that not only meets but exceeds environmental standards.

From Concept to Nationwide Delivery

Transform your brand with our tailored packaging solutions. From secure lid fits and stacking features to full graphic sleeves for unique, compostable cartons and outer sleeves, we bring your vision to life.

Partner With Us

Trust us to enhance your brand's environmental impact and make a standout impression in the market. Our solutions are 100% plant-based, bleach-free, dye-free, and gluten-free, ensuring both environmental responsibility and product integrity. See worldcentric.com/cpg for more information or reach out to sales@worldcentric.com.

Featured Impact Project: Shared Action Africa

Funding A Climate Smart Agricultural Program

Location: Nakivale Refugee Settlement, Uganda

FUNDING TO DATE: \$69,717

Economic Assistance

Shared Action Africa believes that when women and girls are empowered, they transform communities. Their work in refugee settlements in southern Uganda supports women to build sustainable livelihoods, lead healthy lives, and champion climate justice.

Their programs begin with women's savings groups (called Village Savings and Loan Associations or VSLAs), which serve as a foundation for financial inclusion, advocacy, climate justice, and sexual and reproductive health.

With support from World Centric, Shared Action Africa launched a climate-smart agriculture program for 750 women organized in 25 VSLAs. Together they created 750 kitchen gardens, 6 shared communal gardens, and planted over 5,600 trees. By using climate-smart techniques, these gardens produced nearly 1,800 kilograms of beans, 600 kilograms of maize, and 90 kilograms of groundnuts, nourishing households and generating additional income. Additionally, 300 households benefited from energy-efficient cookstoves, which not only reduce carbon emissions and harmful respiratory effects but also free up valuable time and resources that women would otherwise spend on gathering firewood and fuel.

By the Numbers

World Centric's giving impact for community members:

5,600 Trees planted

2,490 Kilograms of beans, maize and groundnuts produced

750 Women participating in savings groups

300 Fuel Efficient Cookstoves Distributed

World Centric is proud to partner with Shared Action Africa and these incredible women – supporting their journey to transform their lives and their communities.

ZERO WASTE EVENT SUCCESS STORY

Gravenstein Apple Fair, Sebastopol, CA

Since 1973, Sonoma County Farm Trails has produced the Gravenstein Apple Fair as their primary annual fundraiser. Proceeds support the nonprofit's mission to keep "farms forever" in Sonoma County.

Gravenstein Apple Fair Waste Station, Sebastopol, CA

Zero Waste Event: Annual Gravenstein Apple Fair

The annual Gravenstein Apple Fair in Sebastopol, CA, attracts between 13,000 and 15,000 attendees over the 2-day event and is currently enjoying its 51st year in operation.

Started in 1973 by Sonoma County Farm Trails as a way to promote small farms, the fair organizers have been slowly transforming the fair into a zero waste event.

Initially motivated by the need to manage the significant waste produced by large gatherings, dedicated sustainability enthusiast Carmen Snyder, the Executive Director of Sonoma County Farm Trails, approached volunteer organizers Alan Siegle and Shelley Brown to achieve 100% waste diversion from landfills.

In recent years, their efforts have resulted in a 95% diversion rate, thanks to improved waste management practices and dedicated volunteers.

Foodservice ware is exclusively reusable or compostable, with vendors encouraged to order through the event organizers to ensure they are compliant products.

Keeping valuable food out of the waste stream is of primary importance for the team, as this waste creates methane when landfilled, contributing to greenhouse gases. Sonoma Food Runners, a local non-profit, collects unserved food directly from vendors to distribute to food banks and shelters. This year, 400 lbs. were donated to food banks as recovered edible food.

Pigs at Green Star Farm were the lucky beneficiaries of 7,000 lbs of food scraps from the Apple Fair.

Volunteers, known as the Green Team, are trained to manage waste at multiple Zero Waste stations and assist

The zero waste initiative at the Apple Fair involves the careful separation of valuable food waste

Food Waste Diverted:

400 lbs to Local Food Banks

7,000 lbs to Local Pig Farm

Apple fritters are served in World Centric unlined fiber containers at the Gravenstein Apple Fair.

attendees with proper disposal. This year, through careful collection of food scraps, 7,000 lbs of food waste was donated to Green Star Farm pig farm.

The waste stations are a great educational opportunity for attendees to gain more knowledge on composting and recycling. Feedback from attendees reflects the success of the zero waste approach, with many expressing appreciation and questioning why more events don't adopt similar practices.

Through continuous education and effective management, the Apple Fair not only provides a positive experience for its guests but also sets a standard for environmental responsibility at large events and has even inspired other local events to aim for zero waste.

For more information on the fair and their sustainability efforts, visit gravensteinapplefair.com.

Resource Recovery Team Memberships & Advocacy

Resource Recovery Managers Erin Levine (left) and Elly Ventura (right) getting their hands dirty in the field testing products.

World Centric's Resource Recovery Managers are subject matter experts in composting, zero-waste regulations, legislation and advocacy. They provide education and help customers navigate compliant products, in addition to recommending the most suitable end-of-life options for our products.

World Centric's products are designed with the end of life in mind. Ideally, the end is in a compost system which will allow the products to return to the earth. The unfortunate reality is that many of our products do not reach their intended final destination. There are several barriers preventing compostables from being properly discarded which include a lack of composting infrastructure, access to composting collection or drop off and overall lack of awareness of the benefits of compostables by consumers and businesses.

We are striving to change that through our participation in numerous composting advocacy groups that lobby for more widespread access to composting in North America. Our Resource Recovery Team participates in the following organizations and advocacy groups:

Member

Member

California Senate Bill 54 Advisory Board Member
Representing the Covered Material Category of "Certified Compostables"

Compost Manufacturing Alliance (CMA®)

The Circularity of Compostables Futures Search
Steering Committee

Active with SB 54 Implementation Group and Compostable Packaging subcommittee

Active with the Compostable Packaging Collaborative and Packaging Policy Collaborative

U.S. Composting Infrastructure Coalition Member, Membership Committee, Young Professionals Mentorship Program, Legislative and Environmental Affairs Committee and several affiliated State Chapters across the country

Email zerowaste@worldcentric.com for more information on foodware legislation and compliant products available.

Sustainable Product Certifications

We test our products to ensure that they comply with ASTM standards for compostability and maintain the following third-party certifications. These certifications attest to the sustainability and compostability of our products. Relying on third-party sources is an important way to independently verify claims and avoid greenwashing. For more details, see our website worldcentric.com/certifications.

Product Specifications and Composting Rates

The information below is meant to be a general guide and testing is recommended in your establishment.

Hot Items 	Product	Heat Resistance	Freezer Safe?	Time to Compost*
	Plant Fiber Containers and Cutlery	Suitable for foods up to 450° F; Oven and microwave safe for short periods. Testing recommended	Yes	2-3 months
	Paper Hot Cups, Bowls & Lids	Suitable for food and drinks up to 220° F; Not microwavable	Short Term Only	2-3 months
	NoTree® Paper Food Containers	Suitable for food up to 220° F; Heat lamp and warming oven safe	Short Term Only	2-3 months
	TPLA Cutlery	Suitable for foods up to 200° F; Dishwasher safe	Yes	2-4 months
	ZeroWare®	Suitable for foods up to 200° F; Dishwasher safe	Yes	N/A
