DID YOU KNOW

OZONE or O₃ is a naturally occurring gas with 3 oxygen atoms & is a powerful disinfectant for both air and surfaces.

How Does It Work?

1 | Ozone (O₃) is created from normal oxygen (O₂) by the ozone generator and delivered throughout the space by the axial air mover.

*OZONE GENERATOR

O₃

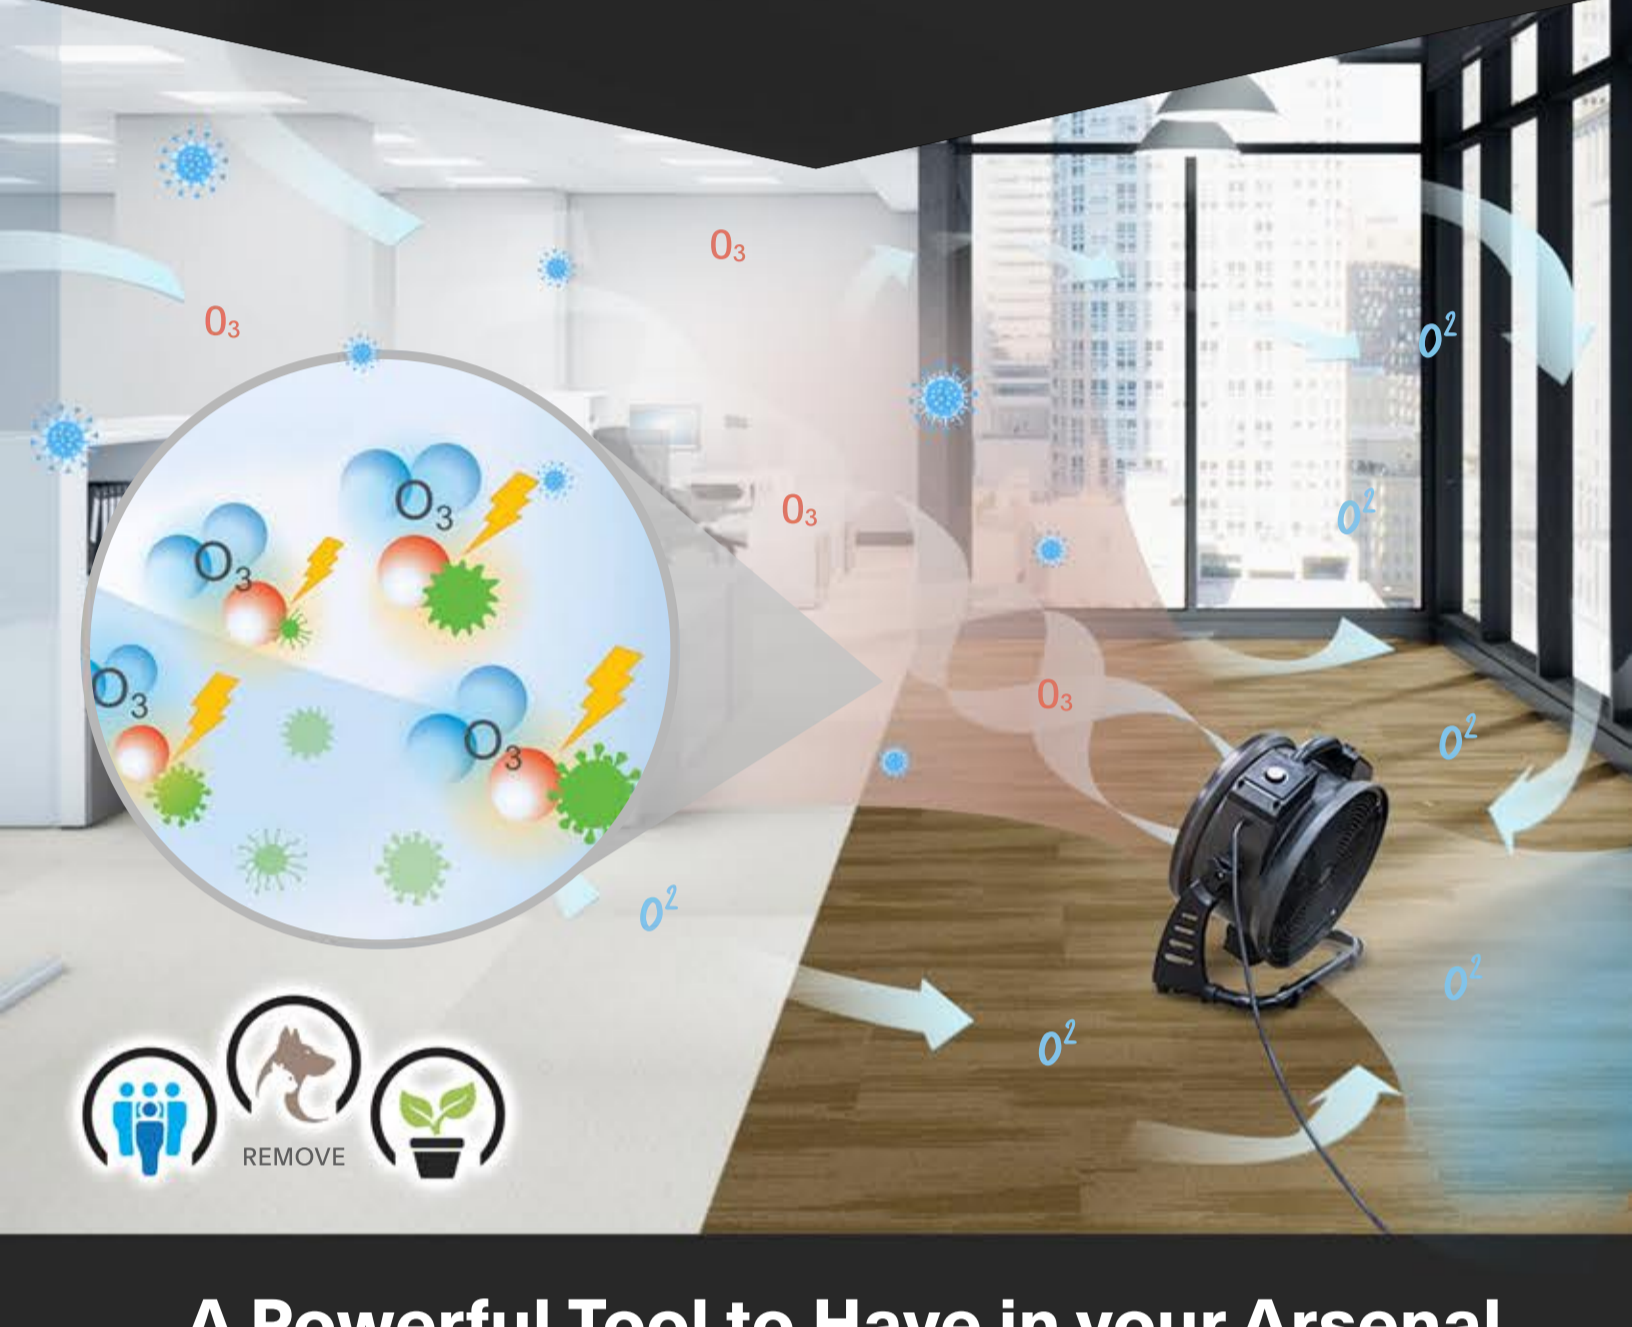

2 | Ozone neutralizes odor-causing agents, viruses, bacteria, allergens & mold spores through oxidation.

O₂

3 | Ozone (O₃) naturally breaks down into normal oxygen (O₂) within a few hours.

Improve Indoor Air Quality with XPOWER AIR NEUTRALIZING FANS
