

NEW FROM WORLD CENTRIC ZEROWARE® TABLEWARE

Our innovative line of reusable tableware, crafted from a unique blend of plant-based materials and minerals.

ZeroWare is a safe and sustainable alternative to petroleum plastic and melamine, ideal for everyday use in hospitals, senior living facilities, schools, and hotels that prioritize reusable tableware for patrons.

Available items include: Plates, Bowls, Cups and Portion Cups

Key Benefits

- ✓ **Eco-Friendly Composition:** Made from plants and minerals.
- ✓ **Health-Safe:** Free from petroleum, phthalates, and BPA.
- ✓ **USDA Certified Biobased Product:** A testament to its sustainability.
- ✓ **Cost Competitive:** Offers a cost-effective alternative to melamine.
- ✓ **Energy Efficient:** Manufacturing PLA produces fewer greenhouse gases than conventional plastics.

Durable Design:

Reusable and dishwasher safe.

With ZeroWare, provide your customers with durable, reusable tableware that prioritizes health and sustainability. Learn more at worldcentric.com/zeroware.

Please note: ZeroWare is made from natural materials but is not currently certified compostable. Not microwavable.

World Centric is a certified B Corporation specializing in crafting durable, compostable foodservice and packaging solutions, driven by a mission dedicated to fostering a better world.
