

# Cantilever Shelves

Space-saving, cantilever design

A convenient storage solution that's space-efficient and perfect for any dry storage application. From the office to the back of the house, this chrome shelf is designed for use with only two posts instead of the traditional four.

## Features

### Environments

Chrome (Dry Environments).

### Airflow

Open design of shelving and ability to adjust shelves facilitates ventilation and maximizes airflow in between and around products.

### Space Saving

Since it's overhead, it can store a variety of items, from paper products and linens, to cooking utensils and office products. A retaining ledge prevents products of all shapes and sizes from falling off.

### Versatile

Two posts instead of the normal four creates an overhead storage solution without drilling into the wall.

## Simple assembly includes split sleeves

Installing and adjusting this shelf on compatible posts is easy. Wall securing brackets sold separately if desired.
