

Cactus Mat Recommended Care and Cleaning Instructions

	<u>How to clean</u>	<u>Cleaner</u>	<u>Frequency</u>	<u>Drying</u>
CARPET MATS –	Vacuum, Hose/Shampoo Carpet extractor	Water based detergent or shampoo	As needed	Allow to fully dry before use
VINYL MATS –	Sweep, damp mop	Mild detergent and warm water.	As needed	Allow to fully dry before use

KITCHEN MATS: CARE & CLEANING INSTRUCTIONS

Grease Resistant or Grease Proof matting subjected to grease and oil must be cleaned, both sides, on a regular basis (daily for busy commercial use), with **warm water**, a deck brush, and a mild detergent absent of bleach, chlorine or butyl.

For maximum performance, mats should be cleaned daily using a mild detergent, warm water and a deck brush to remove all grease. Mats not cared for properly (grease cleaned off daily), or use of mats not designed for greasy areas, may not provide the service you require and will not be covered by any warranty.

Any mat that is worn, damaged, or presents a tripping hazard should be removed from service immediately.

DO NOT: Fold Mats, use bleach or chlorine solutions, or wash in dishwasher. Do not use a degreaser. Do not steam clean (power wash) more than once per week. Do not place mats on floors treated with no rinse enzyme cleaner.

STAINING: Some vinyl floors may not be compatible with rubber mats and staining may occur. Buyer assumes responsibility should staining result.

Note: The above are general guidelines. Some of our products come with specific care and maintenance instructions which should be followed for maximum product life and service.
