

Daily Cleaning for the Fire Oven

Daily Cleaning

Follow the steps below when cleaning your Fire oven. Use only TurboChef®-approved cleaning chemicals. The use of any other cleaning products may damage critical oven components, resulting in a non-warranty service call.

Supplies and Equipment

TurboChef® Oven Cleaner (Product Number: 103180), nylon scrub pad, cleaning towel, disposable gloves, protective eyewear, dust mask (optional)

Step 1: Prepare the Oven

⚠ CAUTION: The oven operates at 842°F (450°C) and may cause injury if not allowed to cool properly.

- Turn off the oven by pressing the On/Off key.
- Cooling takes approximately two hours (or longer). DO NOT clean the oven until the oven is cool.

Step 2: Wipe the Oven Interior

- Remove the lower access panel by removing the two thumbscrews (see above).
- Use a food vacuum or damp towel to remove large particles from the oven interior.

Step 3: Clean the Oven Interior

- Spray TurboChef® Oven Cleaner onto a clean towel or nylon scrub pad and scrub the interior of the oven and the inside portion of the lower access panel.

⚠ CAUTION: DO NOT spray Oven Cleaner into any holes or openings in the oven interior. Doing so can damage critical oven components, resulting in a non-warranty service call.

- Open the oven door and gently wipe down the inside of the Door.
- If necessary, spray a small amount of Oven Cleaner on stains and allow to penetrate for five minutes, then clean with a nylon scrub pad.

Step 4: Rinse or Wipe the Oven Interior

⚠ CAUTION: DO NOT use a hose or water jet for cleaning. Doing so can damage critical oven components, resulting in a non-warranty service call.

- Wipe down the oven interior with a clean damp towel.
- Dry the oven interior with a clean towel.

Step 5: Clean the Oven Exterior

- Reinstall the lower access panel and secure it with the two thumbscrews.
- Wipe the oven exterior with a clean, damp towel.

⚠ CAUTION: DO NOT spray chemicals into any openings, such as the vents on the side and front or the perforation on the back. Doing so can damage critical oven components, resulting in a non-warranty service call.

- The oven is ready to turn on.
