

Model-Specific Compatibility Notes [06/05/2014]:

GDM-23F-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-12FG: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Used after serial number 1-836432.

GDM-10PT: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

T-19E: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-23F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-22: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TS-28G-2PT: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-23FC-RF: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-23-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

G4SM-23PT: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-23PT: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-23-1-G-1: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-23FG: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-23RL: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TUC-27D-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TS-23FG: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GEM-12: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-10: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

G4SM-23RL-SI: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-48-12: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

GDM-26HL: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-48-08: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

T-12G: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Used after serial number 1-836432.

GDM-19: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-48-8M: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

T-19FZ: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Used after serial number 1-836432.

GDM-26RF: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-72-30MB: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

GDM-12FC: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

GDM-23: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-10RF-LE: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

TSSU-48-12M-B: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TS-23-1-G-1: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TS-23G: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-17F-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Used after serial number 1-836432.

TUC-48G: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TS-28G-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDIM-26NT: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. mfg. # 868686.

TS-12: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Used after serial number 1-836432.

GDM-23W: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

G4SM-23FC: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

G4SM-23RL: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-36-12M-B: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-27-08: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TS-23: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is

a pan with hole.

TS-23G-RL: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-19F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Used after serial number 1-836432.

GDM-10LE: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

T-19G: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TUC-27FG: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-36-08: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

GDM-12RF: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

T-23G-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-23F-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-49DT-G: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-27-12M: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

GDM-10RF: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

TS-23F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-23F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-12: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a

pan with hole. Used after serial number 1-836432.

TSSU-48-12D-4: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TUC-48F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-48-12M: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-27-08F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TUC-27: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TS-19: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-19: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TUC-72: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-48-18M: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TUC-36F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TUC-27F-D-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-48-10: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TUC-27G: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TS-23F-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-23FC: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-23: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-48-15M-B: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TUC-72F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TS-28-2PT: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-36-12M: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

GDM-15: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-12LE-RF: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

TS-23-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-72-30M: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TS-28-2-G-2PT: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TMC-49-DS: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-72-18D-2: Do not use with pan heater. If using one piece drain pan heater use part number

912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TUC-27F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-27-12M-C: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

T-23G-RL: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-23G: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TS-23G-PT: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TS-23G-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-12LE: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

TUC-48F-D: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

GDM-14RF: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TS-28G-RL: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TUC-48D-4: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

T-12F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Used after serial number 1-836432.

GDM-26: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GEM-12FC: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-72-30MB-DS: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

GDM-23RF: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GEM-23FC: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GEM-23: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-48-18M-B: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

GDM-26F: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

G4SM-23: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. mfg. # 868686.

GDM-14: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDM-12: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

GDM-23HL: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

T-35FZ: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

G4SM-23-RGS: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TC-23: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

GDIM-26: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. mfg. # 868686.

TSSU-27-08D-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

GDM-10FZ: Do not use with pan heater. If using one piece drain pan heater use part number 866373. Used after serial number 1-836432.

TSSU-72-18: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-48-15M: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-27-12M-B: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TS-28: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TS-28PT: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TS-28G-PT: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-72-10: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TUC-48F-D-4: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-30M-B-ST: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-18-ST: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-30M-B-DS-ST: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-48-12D-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

T-23F-1-G-1: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-48-18MB-D4: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-30MB-ST-D2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

T-23FG-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole.

TSSU-72-18M-B: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-16: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-12: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-08: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-24M-B-ST: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-12M-B: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-15M-B: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-27-12MC-D-2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-36-15MB: Do not use with pan heater. If using one piece drain pan heater use part number

912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-12D-4: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-72-18D-4: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.

TSSU-48-18MB-D2: Do not use with pan heater. If using one piece drain pan heater use part number 912539 which is a pan with hole. Use when one piece heated drain pan is used. This pan is placed in the compressor area instead of the drain pan bracket.
