

Model-Specific Compatibility Notes [07/11/2014]:

GDM-07LE: Option. Used primarily by some European customers. Standard. One per cabinet. will fit anywhere above the step area in the cabinet although it will not line up flush in front with the other shelves as it is 1-1/2" shorter front to back. Also the shelf clips would have to be off set in back by one position up. You also lose 4" of shelf space at the back of the shelf as it is open.

GDM-07: Option. Used primarily by some European customers.
