Cleaning and care of your furniture

Our furniture is manufactured using a high quality melamine laminate with durable pvc edging. The melamine surface is highly resistant to common hazards such as scratches, peeling, moisture and heat. There may be glue residue on the surface of the furniture remaining from the manufacturing process. If you find residue, it can be easily removed using a soft cloth moistened with isopropyl (rubbing alcohol). For regular maintenance of your furniture, use a soft cloth with a mild cleaning solution. Never use abrasives or harsh chemicals to clean the furniture as it may harm the finish. Leveling glides can be adjusted to compensate for uneven floors.
