

# CPG Ranges

## The Work Horse

of Your Operation

Convenient back shelf for holding seasonings & go-to items needed in the kitchen.

Stainless steel construction & high quality thermostat make this unit extremely reliable and durable.

This range features 6 powerful 30,000 BTU burners each outfitted with sturdy removable cast iron grates that bring durability and make for easy clean-up.

Sleek metal knobs designed for added durability & easy cleanins.

The crumb tray located below the burners catches all debris that may fall through the cooking surface.

30,000 BTU full size oven which ranges in temperature from 200-500 degrees fahrenheit, it can bake or hold product.

Equipped with multiple slots for oven racks, this allows for versatile use across various food products. Cleaning and upkeep are made easy by the fully porcelain oven floor.

A kick plate provides protection to internal components & easy access if required for servicing.

Adjustable 6 inch stainless steel legs are strong, easy to clean, & assure your unit stays level & sturdy.

## Where Versatility and Unrivalled Quality Meet

Choose anywhere from 24, 36, or even 60 inch ranges with multiple configurations that include burners, griddle, full size oven, & even salamander built-ins. This unit is a compact space saver for your operation & provides all the same functionality from up to 4 separate pieces of equipment. The interchangeable options for burners, griddles & ovens make the CPG Range a tremendous asset to your commercial kitchen with extensive versatility. Each configuration is equipped with crumb trays, easy access kick plates, 6" adjustable legs, rugged stainless steel and aluminum construction, metal knobs, and a convenient back shelf.
