

Ultra Series Chrome Griddles

Scale Up Your Griddle Lineup

Chrome griddles take 45% less time to clean than standard steel plate griddles.

Back and side splashes protect walls and countertops from unwanted messes.

Chrome-plated cooktop has superior heat retention to ensure a cooler kitchen and 30% more energy savings when compared to standard cooktops.

Flame failure protection system prevents gas from going to the burner if the flame is extinguished.

The convenient, built-in standing pilot offers instant ignition for an immediate flame whenever you need it.

Powerful 30,000 BTU stainless steel U-shaped burners are adjustable from 200-575°F.

Ultra Series Chrome Griddles

Countertop Cooking Meets Chrome-Plated Convenience

Enjoy unmatched convenience and energy savings with Cooking Performance Group Ultra Series chrome-plated countertop griddles! Available models come with natural gas or liquid propane connections and include anywhere from two to six burners so you can find the right fit for your establishment. The precise, adjustable temperature controls make cooking delicate lunch and breakfast foods a breeze. Unlike steel griddles, chrome plated griddles do not absorb food particles, greatly reducing flavor transfer. The chrome surface also prevents the sticking and browning of food. Cook everything on your menu from delicate eggs to juicy burgers with no carry over flavors, sticking, or browning! This reliable, attractive line of griddles looks great in front-of-house applications and allows for faster cooking at lower temperatures. With a full-width waste tray, these griddles are the complete package of excellent performance and worry-free maintenance. Each CPG Ultra Series chrome-plated countertop griddle ships with a free chrome griddle cleaning kit for added convenience during cleanup!

Proper Care for Chrome Griddles

To ensure maximum performance, you will need to use non-metallic high heat utensils. Never chop, hack, or hit on the griddle surface as this will cause irreparable damage.
