

Crathco® Barrel Freezers Start and Adjust for Counter Models

Available for all counter units except remote condensing or pressurized models. The install, start and adjust program includes limited installation, equipment inspection, equipment start-up and operator training by a single person in locations 35 miles or less from a Grindmaster-Cecilware™ Authorized Service Center (locations listed below).

When installation is purchased with a machine, the unit will be shipped to the installer. The customer must provide the following for installation:

1. Appropriate electric service within 4 feet of the machine's location for electric hook-up including appropriate heavy duty grounded receptacle with its own breaker.
2. Access to cold water with minimum of 30 psi pressure with adequate shut-off valve within 6 feet of the machine's location on units requiring water line hook-up.
3. Adequate drain availability for flexible drain hose on units requiring water line hook-up.
4. Adequate and appropriate space to position unit.

*Additional charges (i.e. removal of old equipment, work required to reach compliance with installation requirements above, travel time outside stated radius, or other expenses outside a normal installation situation) are the responsibility of the customer.
