### Cleaning Tips

Even POLYWOOD gets dirty — here are some ways to help keep it clean:

**For a quick clean:**

Simply wipe down with soap and water.

**For a deeper clean:**

You'll need:

- » 1/3 bleach and 2/3 water solution
- » clean cloth
- » soft bristle brush

Wipe on solution with your cloth and let it sit on the lumber for a few minutes (this will not affect the color). Then, loosen any dirt and debris that may catch in surface grooves with a soft bristle brush; hose down to rinse.
