

NOBLE CHEMICAL DRY IT LOW RINSE AID / DRYING AGENT FOR LOW TEMP DISH MACHINES

FOR USE ON:

China
Glassware
Flatware
Plasticware

DESCRIPTION:

Formulated to work with low temperature dishwashing machines, Noble Chemical Dry It Low has a concentrated drying agent that encourages rapid sheeting and a spot-free shine! This product is *only* to be used with automatic dispensing systems.

DIRECTIONS:

This product is recommended for use at concentrations between a minimum of 150 ppm (1:6,667) and a maximum of 300 ppm (1:3,333). The actual use concentration is determined by the individual operating conditions. Final rinse temperature should be maintained at 140 degrees Fahrenheit and should not exceed 150 degrees Fahrenheit, in any case. Adjust the rinse injector to feed the product at the required concentration to achieve the rapid sheeting of water from your ware!
