Many of our products will have a Best By, Best Before or Enjoy By date. This is the date that the product is guaranteed to be at its highest quality, provided it was stored unopened according to instructions. Once a product is opened, the storage conditions are critical to this shelf life.

The DVG Pumpkin Pie Sauce enjoys a shelf life of 14 months, unopened when stored in ambient conditions.

There are no food safety concerns with this product and shelf life can be extended an additional 90 days under required conditions.

Furthermore, dependent on storage conditions the color will become darker, and the flavor will present as sweeter. Only the end user can determine if the quality of the product has been maintained.

Please direct any questions to your customer care representative.
