Contributions to LEED CI 2.0

Nuvm may contribute to LEED credits due to its returnable/ reusable packaging, durability, pre-consumer recycled content, and post-consumer content. Depending on location, Nuvm also may contribute to a LEED Regional Materials credit.

5-year warranty on internal mechanism

We guarantee the internal mechanism of Nuvm for a period of 5 years from the date of purchase of the product. The 5-year guarantee covers the workmanship of internal aluminum and plastic frame. It does not cover fading of material color, damage to leather or any faults or damage caused by the use of the product other than in accordance with the manufacturer's recommendations, as well as any faults or damage arising from any repairs made by any persons not authorized by the manufacturer. All other accessories only have one year full warranty.

Care & maintenance of Upholstery Leather

The leather on Nuvem is synonymous with luxury, class and culture, this leather is a durable and practical covering. It will not readily burn or melt, unlike most fabric or vinyl, it's extremely difficult to puncture. Unlike imitation leathers, genuine leather will not become hot or sticky in summer, nor cold and clammy in winter. Because it is a natural product, hides may have different patterns and over the years leather will take patina, giving it a distinct look, making each piece of Nuvem a unique item. Being a natural product, it needs little or no care during normal use. However, in the event that you have a spot or spill, the following cleaning hints should help.

 Spots and spills: Blot liquid immediately with a clean absorbent cloth or sponge. Dry with a clean towel and allow to air dry. Avoid rubbing during the cleaning process.

 Stubborn Spots and Stains: Use a mild solution of ivory soap and clean, lukewarm water. Apply the soap to a clean, wet sponge, then rinse well and let air dry naturally. Always try the cleaning method in a hidden area first to be sure its color will not run or fade with washing or wear.

 **Never** use saddle soap, abrasive cleanser, soap, furniture polish oil, varnish or ammonia water to clean your Nuvem chair. Most liquids will be initially repelled by the leather, but if left to stand over an extended period of time, they will be absorbed. Do not use acids or alkaline cleaning agents. Never use stain remover, shoe polish, solvents, floor polish, cosmetics or any other harsh cleaning agents. Do not use scouring agents, steel wool, pan scrubs or similar products. Using sharp objects, e.g. blades or knives, can damage (scratch) the surface.

 Daily care: Avoid cosmetics and body care products touching the leather; Keep your pets away from the leather; Keep at least 30cm away from any source of heat; Do not place the chair in direct sunlight.

Cleaning instruction for the mesh.

Use clean water, mild household or hospital detergents. **DO NOT** use solvents or petroleum based cleaners.
