Introducing **FEVER-TREE** ESPRESSO MARTINI MIX

WHY ESPRESSO MARTINI MIX?

- We combine Robusta and Arabica coffee beans sourced from the mountainous regions along the coast of Bali to craft a perfectly balanced flavor profile. Our blend offers rich, deep roasted coffee and chocolate undertones from the Robusta beans, balanced with the fruity complexity of Arabica coffee.
- Texture is crucial to any drink experience, particularly the Espresso Martini. Our Espresso Martini Mix achieves its authentic texture by blending the Indonesian coffee extract and sugar rather than adding in any other ingredients to boost this. This creates the perfect balance, resulting in a creamy, flavorful mouthfeel.
- One of the most satisfying parts of an Espresso Martini is the foamy crema that sits on top. It is an essential component of the Espresso Martini, contributing to its appearance, texture, flavor, and overall enjoyment. Crema naturally forms from the coffee and is further enhanced when shaken.

NATURALLY-SOURCED INGREDIENTS

- Robusta and Arabica coffee beans from the mountainous regions along the coast of Bali

ABOUT OUR COFFEE

- We use a blend of Arabica & Robusta coffee extracts sourced from mountainous regions along the coast of Bali in Indonesia. The combination of the warm humid climate, cooling coastal sea breeze & rich fertile soil make these regions the perfect growing conditions for coffee. The coffee beans are picked by hand, cleaned & left in the sun to dry. Once the beans are dried the husks are then removed before they are roasted to develop their rich flavor. Arabica tends to have more delicate fruity & floral flavor notes whereas the Robusta brings a richer, more bitter flavor profile to the mixer.

FEVER-TREE IS LEADING THE PREMIUM MIXER SPACE
