

FIELD OF APPLICATION

Temperature range

Recommended: -40°F to +464°F - Maximum temperature peak (for 5 minutes max): +500°F

Warning, displayed temperatures are not always an accurate representation of the actual temperatures of products

REGULATORY DATA

Compliant with applicable European and American (FDA) regulations for suitability of contact with food

Compliant with the NF Food Hygiene standard (CERTIFYING BODY : AFAQ AFNOR Certification - 11 rue Francis de Pressensé - 93571 LA PLAINE ST DENIS CEDEX – France - REFERENCE DOCUMENT : NF 031 www.marque-nf.com)

N.S.F. certified (CERTIFYING BODY : NSF International (National Safety Foundation, worldwide recognized American organism) – 789 N. Dixboro Road, Ann Arbor, MI 48105 USA - REFERENCE STANDARD : NSF/ANSI Standard 2 <http://www.nsf.org>)

USE & CARE

Before first use, products must be washed

Regular cleaning is recommended to optimize the product shelf life. Cleaning frequency depends on use (process and type of ingredients)

Products can be cleaned with a soft sponge (nonabrasive) and hot water with a detergent, and also with a washing machine (dish-washer, tunnel, etc.) using water with a detergent

Possible cleaning by dry brushing (soft brush)

If flouring / grease spraying / grains / sugar / basting using egg yolks, clean more frequently

Effective rinsing using water (tap water, de-mineralized water or water that has undergone osmosis) to avoid detergent residue

Use proper quantities of detergent according to its technical data (pH of the final diluted solution must be between 5 and 10). Do not use a high-pressure cleaner

Avoid all aggressive mechanical actions on the product surface (cutting tools, brushes, spatulas, scrapers, etc.)

Do not use in contact with a direct source of heat (hot plate, flame, oven heating element, grill, radiant heat)

Drying in open air, hot air drying (Max. T° 150°C for 15 min maximum) or blow drying possible

STORAGE

Store in a dry place

Before and after extended storage, clean the product

Protect surfaces from impacts and scratches

Store away from direct sunlight, freezing temperatures and humidity

Do not fold products

Flat storage recommended on the reverse side in stacks of 1 to 5 max. depending on the mold shapes
