

## Beer Drip Tray Flush Mount

### Assembly Instructions

#### TOOLS REQUIRED

- (1) Pencil
- (1) Saber Saw
- (1) Safety Glasses
- (1) Cut-Resistant Gloves
- (1) Adjustable Wrench

#### HARDWARE:

- Locknut

### Assembly Instructions

1. Remove all contents from carton. Inspect the beer drip tray for any damage prior to installing. Damaged units should not be installed.
2. Position beer drip tray where it is intended, making sure the drain matches where it needs to drain underneath the countertop.
3. Using a pencil, carefully trace along the beer drip tray.
4. Drill a pilot hole inside the traced line.
5. Place the saw inside the pilot hole and cutout area for beer drip tray in counter so it will be flush with the counter.
6. Align the drain thread to the underneath of the counter drain and screw together securing with the locknut.
