

eclipse Hard Pack Ice Cream FAQs

About Eclipse Hard Pack Ice Cream:

- Top 9 Allergen-Friendly
- Gluten, Nut & Soy Free
- Vegan
- Kosher (Certified, OU-DE)
- Non-GMO
- Non-Dairy

Messaging on Eclipse Ingredients (Staff / POS / Quick Interaction)

- Eclipse soft serve is rich and ultra-creamy, while being non-dairy and allergen-friendly.
- Made with cassava (tapioca), fava bean protein, and other plant-based ingredients to deliver a rich, creamy texture and indulgent flavor.

What's it made out of?

It's made from a blend of non-GMO plant ingredients including fava, cassava, potato, and corn.

What is it sweetened with?

We use vegan friendly, non-GMO cane sugar.

Is it Kosher?

Yes, it's OU-DE Kosher Certified. The "DE" indicates the product was made on equipment also used for dairy.

How should Eclipse Hard Pack be stored?

Keep frozen at 0°F or below. For best scoopability and texture, temper product to approximately 10°F before service.

General Shake Guide:

For a 12 oz shake, blend:

- 9 oz Eclipse Vanilla Ice Cream
- 1 to 2 oz flavor add-ins such as cookie butter, Nocciolata, syrups, fruit purées, etc
- 1 to 2 oz water or milk of choice

Tip: Eclipse performs exceptionally well with water instead of milk, allowing operators to lower food costs and streamline back-of-house ingredients without compromising creaminess.

Eclipse Hard Pack Ice Cream is Top 9 Allergen-Friendly. While it is manufactured on shared equipment that also processes milk, egg, and peanut, thorough cleaning protocols and allergen testing are in place to minimize the risk of cross-contact.
