

Dough Counter Utility Cart - Item #273170

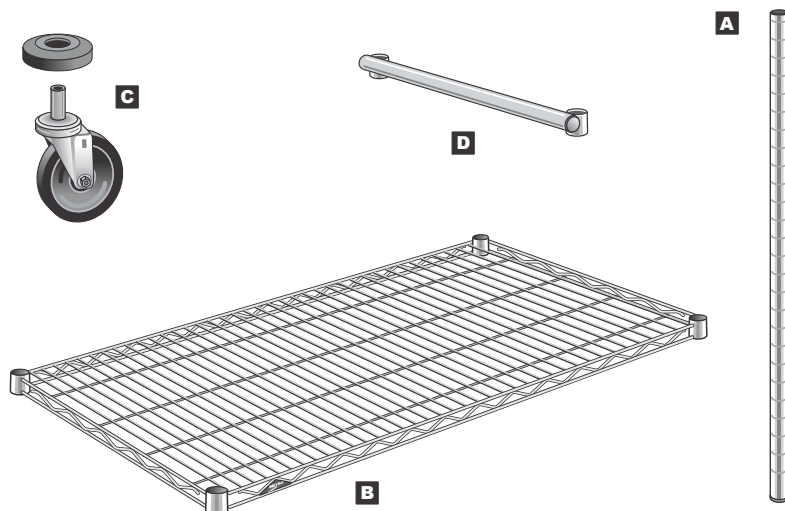

ASSEMBLY INSTRUCTIONS

INSTR-DOMDCUC 10/14

Components

Tools Required:

Rubber Mallet
or
Hammer and Board

Key	Qty.	Part #	Description
A	4	27UP	Post 27 3/4"
B	3	1836NC	Wire Shelf 18" x 36"
C	4	4LD	Stem Caster
D	1	PH18NC	Handle

Hardware

Pair of Black Plastic Split Sleeves
(Qty. = 12)

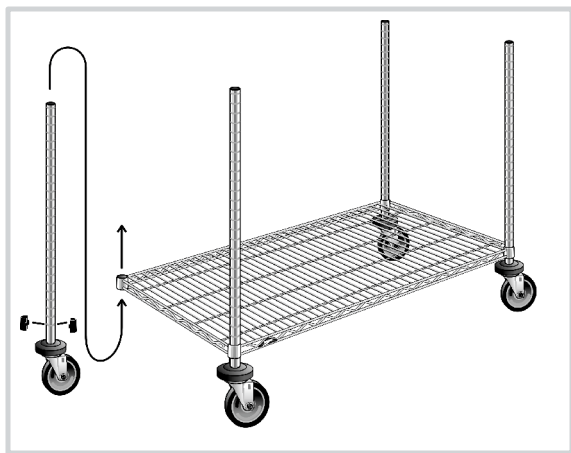

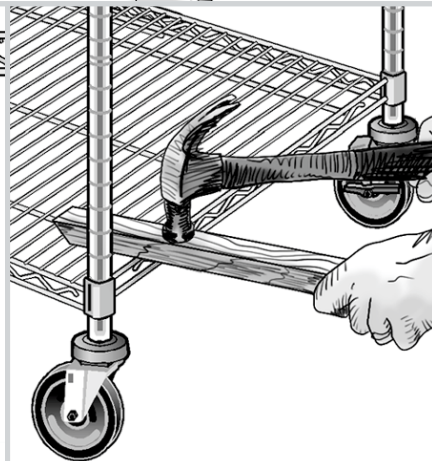

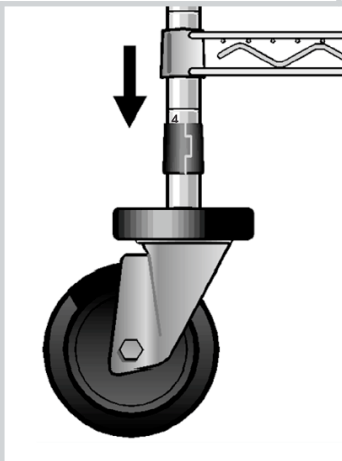

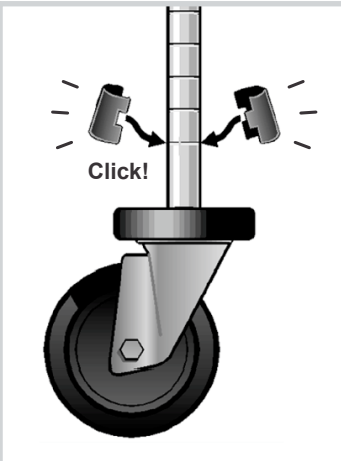

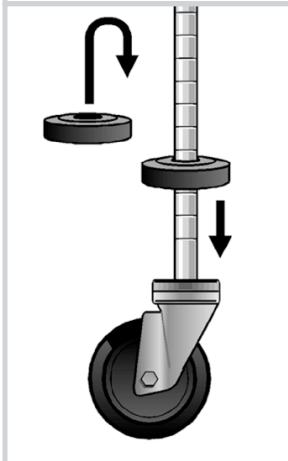

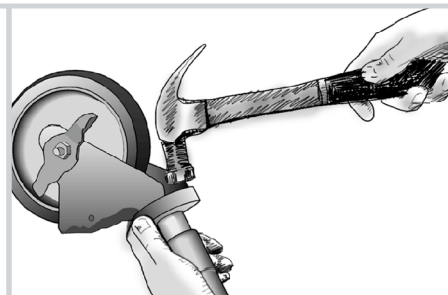

Pair of Aluminum Split Sleeves with retaining ring
(Qty. = 2)

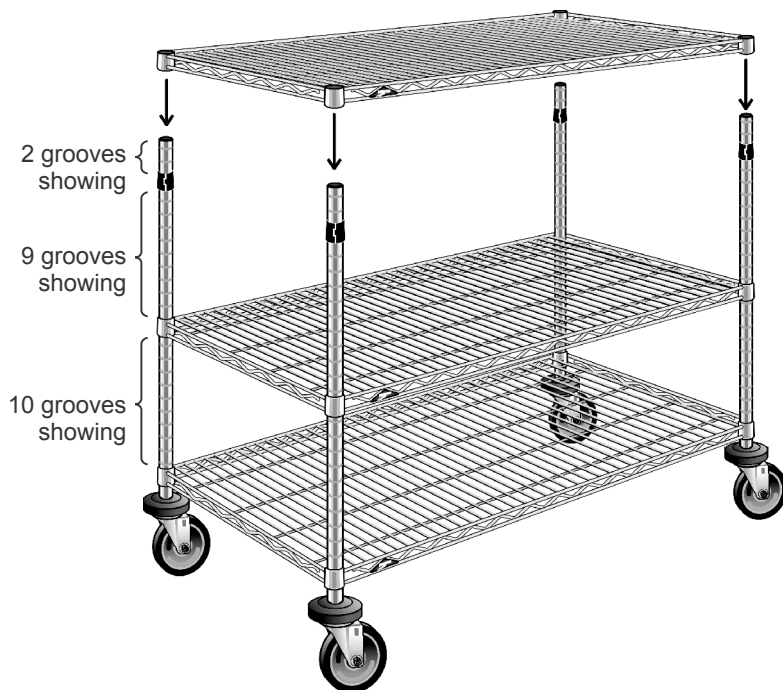

1. Use a hammer to tap the casters into the posts. Attach the bumpers as shown and then attach a pair of plastic split sleeves to each post so the bead on the inside of the sleeves snaps into the lowest groove on each post.

Be sure the split sleeves are wider at the bottom.

Install the bottom shelf as shown below and then seat the shelf with a mallet or a hammer and board.

2. Install the remaining two shelves as shown and seat each corner with a mallet or a hammer and board.

3. Install the handle on one end: attach the two pairs of aluminum split sleeves to each post so the bead on the inside of the sleeves snaps into the top groove. Lower the handle collars over the split sleeves. Snap the retaining rings onto the split sleeves as shown.
