

In Counter Cup Dispenser Instruction Sheet

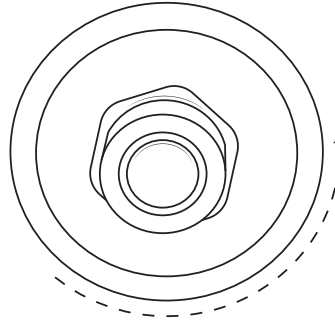

STEP 1

Cut out hole in countertop
(hole saw recommended).

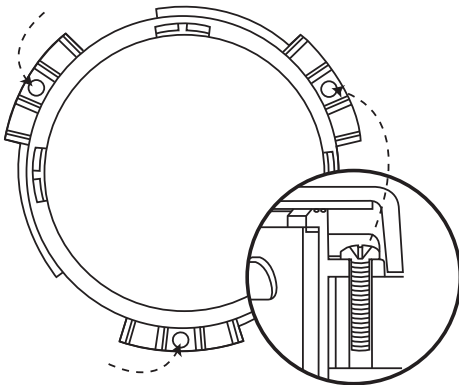

STEP 2

Remove bezel ring from the dispenser by
turning it counterclockwise.

STEP 3

Use the included screws and a screwdriver to
secure the dispenser to the countertop.

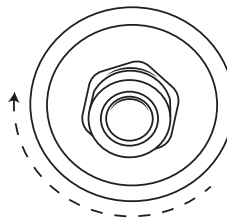

STEP 4

Attach gasket to bezel ring.
Note: See steps below for selecting gasket size.

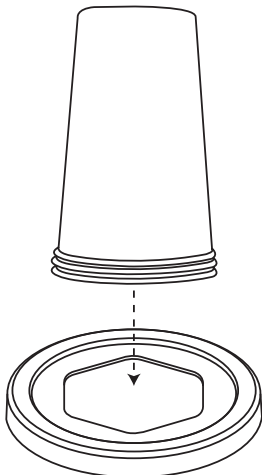

STEP 5

Attach bezel ring with gasket to dispenser
mounting ring by turning clockwise.

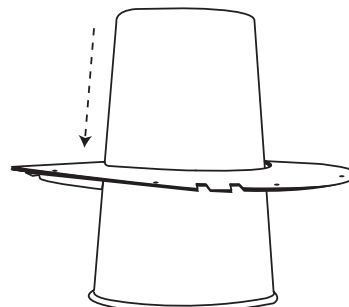

STEP 6

Assembly complete. Load cups through
dispenser.

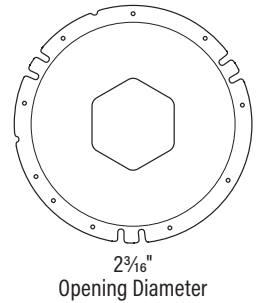

SELECTING GASKET SIZE

- 1) Select a cup you plan on using with the dispenser and place it upside down.
- 2) Place one of the gaskets over the cup.
- 3) For best use, the gasket should rest around 2/3 of the way down the cup. Try gaskets until one fits correctly.
