

Installation Instructions

Unit Equipped with "L" Brackets

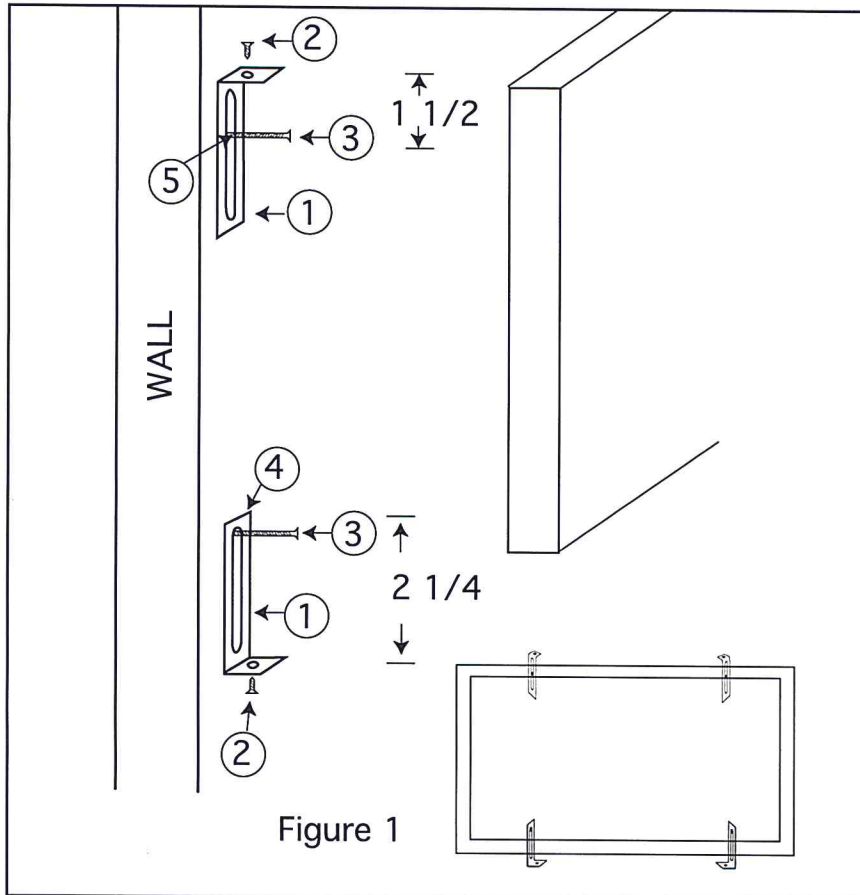

Figure 1

PARTS

- 4 Adjustable "L" Brackets
- 4 small Screws (See 2)

Attach the Adjustable "L" Brackets to the wall spaced approximately 3 to 4 inches to left and right of board edges.

NOTE: Customers must supply appropriate screws for mounting to wall surface. (See 3)

"L" Brackets can be moved up and down, however, since bottom bracket will support the entire weight it should be moved down to desired level with screw mounted at top of slot. (See 4)

Top "L" Brackets should be mounted with screw in center of slot when bracket is up to board height. (See 5)

Rest bottom of board on bottom bracket and tap top bracket until it rests tightly against top of board. (See Figure 1)

Insert and tighten screws into top and bottom edge of board to secure board against wall.

"L" Brackets are not seen from top of board.
