

# Monin Neutral Beverage Base FAQs

- **How much longer do frozen beverages hold without separating when using Monin Neutral Beverage Base?**
  - Frozen beverages hold 3x-4x longer without separating when blended with Monin Neutral Beverage Base instead of just ice. Depending on the application, frozen beverages blended with Monin Neutral Beverage Base can hold 15 or more minutes without separating.
- **Will Monin Neutral Beverage Base change the flavor or color of my frozen beverages?**
  - No, Monin Neutral Beverage Base helps frozen beverages last longer without separating but does not change the intended flavor or color of the beverages it is incorporated into.
- **Does Monin Neutral Beverage Base have flavor?**
  - Monin Neutral Beverage Base is slightly sweet with a hint of vanilla.
- **In what frozen beverages does Monin Neutral Beverage Base work best?**
  - Monin Neutral Beverage Base can be blended in any frozen beverage, but works especially well for frozen coffees, frozen cocktails/mocktails such as Frosés and Bellinis, lemonades and milkshakes.
- **Why should I use Monin Neutral Beverage Base instead of plain frappé powder?**
  - Since it is a liquid, using a pump to incorporate Monin Neutral Beverage Base into your frozen beverage recipes is easier, more consistent and creates less mess vs. using a scoop.
- **Will Monin Neutral Beverage Base impact the consistency and texture of my frozen beverage?**
  - Yes, for the better! Adding Monin Neutral Beverage Base to frozen drinks gives them a consistently smooth, non-icy texture.
- **Can I use Monin Neutral Beverage Base to create batch recipes for my frozen beverage machine?**
  - Yes! One bottle of Monin Neutral Beverage Base is perfect for creating a 3-gallon batch for use in any frozen beverage machine.

- **How much Neutral Beverage Base is required for a single-serve frozen drink?**
  - Any 16 oz. frozen beverage requires 1.5 oz. (3 pumps) of Monin Neutral Beverage Base. Each pump dispenses ½ oz. of product.
- **How many servings are in a bottle of Monin Neutral Beverage Base?**
  - There are 42 servings in 1 bottle of Monin Neutral Beverage Base.
- **Can I use Monin Neutral Beverage Base as a substitute for other ingredients?**
  - When making milkshakes, Monin Neutral Beverage Base can be used in place of a portion of the ice cream. For shakes requiring 4 ice cream scoops, 1.5 oz. of Monin Neutral Beverage Base can substitute for 2 of these scoops.
- **Is Monin Neutral Beverage Base clean label?**
  - Yes. Monin Neutral Beverage Base is clean label and does not contain any artificial flavors, colors, preservatives or sweeteners.
- **Is Monin Neutral Beverage Base recommended for any non-frozen beverage applications?**
  - No. Monin Neutral Beverage Base is designed to improve frozen beverage hold time and consistency. It should not be used to thicken iced or hot beverages.
- **Does Monin Neutral Beverage Base need to be refrigerated after opening?**
  - No. Monin Neutral Beverage Base is shelf stable.
- **What is the shelf-life for Monin Neutral Beverage Base?**
  - 18 months unopened, 90 days after opening.
- **Can Monin Neutral Beverage Base be used in culinary applications?**
  - Usage in culinary applications is limited due to the large amount of base that would have to be used in each recipe.
