

NOBLE CHEMICAL SANI-512 SANITIZER / DISINFECTANT CLEANER

FOR USE ON:

Floors
Walls
Sinks
Silverware
Glasses / Dishes
Refrigerators
Countertops / Tables
Food Processing Equipment

DESCRIPTION:

This versatile cleaner is great for use on virtually any surface in restaurants, bars, hotels, kitchens, bathrooms, and other institutionalized locations.

DIRECTIONS:

For Disinfecting: This product disinfects floors, walls, metal surfaces, painted surfaces, exterior bowl surfaces, empty basins, showers, athletic equipment, garbage cans, lavatory fixtures and other hard, inanimate, non-porous surfaces. Remove gross filth and soil deposits. Pre-clean all surfaces prior to disinfection. Thoroughly wet surfaces. Use 1 ounce per gallon of water for a minimum contact time of 10 minutes in a single application. This product may be applied with a mop, sponge, or cloth, as well as via spraying or soaking. The recommended solution should be prepared fresh for each use and then discarded. Rinsing is not necessary unless floors are to be waxed or polished.

For Sanitizing: For use on hard non-porous surfaces such as counter tops, eating utensils, and drinking glasses. Remove gross filth and soil deposits. Pre-clean all surfaces prior to sanitizing. Thoroughly wet surfaces. Use 1 ounce per 4 gallons of water for a minimum contact time of 1 minute in a single application. This product may be applied with mop, sponge, or cloth, as well as via spraying or soaking. It is recommended that the solution is prepared fresh for each use then discarded. Drain thoroughly. Do not rinse. **Before use as a sanitizer in federally inspected meat and poultry plants and dairies, food products and packaging materials must be removed from the room or carefully protected.** A potable water rinse is not required following use of this compound on previously cleaned hard surfaces provided that the surfaces are adequately drained for contact with food so that little or no residue remains.

Restaurant and Bar Use: For use as a sanitizer on dishes, glassware, silverware, cooking utensils, wash with detergent, rinse thoroughly and immerse in a solution (1 ounce per 4 gallons of water) for at least 1 minute.
